Safety Information

This is a tobacco product.
No tobacco product is safe or
without risk. Visit
vuse.com/faqs for important
product information before use.

Who is Vuse Pro for?

1. Vuse Pro is for adult tobacco consumers of legal age. Underage sale prohibited.
2. Vuse Pro is NOT for people who:
 - have quit tobacco use.
 - have never used tobacco.
 - are pregnant or breastfeeding.
 - have or are at risk of developing heart disease, high blood pressure or diabetes, or those who are taking medicine for depression or asthma.

What should I be careful of when using Vuse pods?

1. Keep out of reach of children and pets.
2. Immediately stop use of this product and seek medical advice if you experience any of the following: Development of an irregular heartbeat; allergic reaction such as rash, itching or swelling of the tongue; feeling faint; nausea; headache; or any other unusual or adverse effect.

Safety Information

3. Inhalation of vapor may aggravate existing respiratory conditions.
4. Do not use pods if they show signs of damage or tampering.
5. Do not tamper with or open pods.
6. Do not drink the Vuse pod liquid. If ingested, seek prompt medical attention.
7. Avoid pod liquid contact with eyes, skin, or clothing.
8. Take care when using pods as they may leak.

What should I keep in mind when storing or enjoying Vuse Pro?

1. Keep out of reach of children and pets, even when locked.
2. Only for use with Vuse pods and Vuse Pro charging cables and accessories.
3. Do not use Vuse Pro or its charging cable if they show signs of damage or tampering.
4. Do not use Vuse Pro if it is wet, damaged, malfunctioning or feels unusually warm. If this occurs, please contact us.
5. Electromagnetic fields emitted by Vuse Pro and the paired Vuse Pro app may interfere with pacemakers, defibrillators, hearing aids and/or other medical devices if used within a close distance. Consult your physician and medical device manufacturer for information specific to your medical device.

Safety Information

Important Product Information

- Vuse Pro is IPX4 rated, making it splash resistant to water.
 - If water droplets get on Vuse Pro, gently dry it with a piece of cloth.
 - If Vuse Pro becomes fully wet or immersed in water, do not use. If this occurs, please contact us.
- The device has an overvoltage, overcurrent and a short-circuit protection function.
- During activation, if the device short circuits, the LED will flash red 3 times and the device will cut the power to the pod and the vapor production will stop.
- If the device is puffed for a total of more than 40 seconds in a 60 second period, the LED will flash and vapor production will stop for 60 seconds. If you vape in this period the LED will flash red twice and no vapor will be produced.
- Rating input of magnetic charging cable: 5VDC, 1.5A.
- Using an AC adaptor with a current output lower than this will result in a slower charge time.
- The device has a reset function. To reset the device navigate to "Reset Pro Device to Factory Settings" in the Vuse Pro App.
- If you have any queries or doubts about the use of your Vuse Pro or any other Vuse products, please contact the Vuse Customer Care Team on:

Regulatory Compliance Information

FCC Compliance Statement

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television receptions, which is found by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
