Italiano	25-30

Шаг установки:

01 Подключите телевизор к источнику питания.

02 Подключите телевизор к телевизору с помощью кабеля HD или AV.

03 Для проводного подключения подключите кабель Ethernet от телевизора к модему или маршрутизатору. Для беспроводного подключения выберите сеть Wi-Fi и введите пароль Wi-Fi.

Ключевая характеристика:

- Rockchip RK3528 64-разрядный чипсет процессора ARM Cortex A53.
- 100M Ethernet, 802.11b/g/n/ac/ax 2.4G/5G WiFi, BT5.0.
- Android 13 OS, поддержка обновления OTA.

FIG. 10

Кастинг экрана

Введение:
Телевизионная приставка позволяет воспроизводить фотографии, музыку и видео со смартфона или планшетного компьютера на телевизоре.

Подготовка:
Убедитесь, что ваше устройство и телевизионная приставка подключены к одной сети.

Как пользоваться:
После того, как ваше устройство и телевизор будут подключены к одной сети, логотип [TV] появится на экранах приложений вашего устройства. Нажмите на [TV] и поделитесь фотографиями, музыкой и видео на телевизоре.

FIG. 12

Pasos de Instalación

01 Conecte el Set-Top Box a la fuente de alimentación.

02 Conecte el Set-Top Box a la fuente de alimentación.

03 Para una conexión por cable, conecte el cable de Internet desde Set-Top Box al módem o emisor. Para conexión inalámbrica, seleccione su red Wi-Fi e ingrese su contraseña de Wi-Fi.

Principales Características

- Rockchip RK3528 64-bit Quad core ARM Cortex A53.
- Red cableada RJ45 100M, red inalámbrica 802.11 b/g/n/ac/ax 2.4G/5G WiFi, BT5.0.
- Android 13 OS, soporte de actualización OTA.

FIG. 16

El Screencast

Introducción:
El Set-Top Box le permite ver fotos, escuchar música y ver videos desde su teléfono inteligente o tabletas en el televisor.

Preparación:
Asegúrese de que su dispositivo y Set-Top Box estén conectados a la misma red.

Cómo usarlo:
Después de que el dispositivo y el Set-Top Box estén conectados a la misma red, el logo [TV] aparecerá en la aplicación correspondiente del dispositivo. Haga clic en [TV] y puede compartir la foto, la música y el video en el televisor.

FIG. 18

Etapes d'Installation

01 Branchez le TV Box.

02 Connecter le TV Box à votre TV avec un HD câble ou AV câble.

03 Pour une connexion filaire, branchez le câble Ethernet du TV Box à votre modem ou routeur. Pour une connexion sans fil, choisissez votre réseau WiFi et entrez votre mot de passe du WiFi.

Principales Caractéristiques

- Rockchip RK3528 Processeur ARM Cortex A53 quad-core 64 bits.
- Wired RJ45 100M, wireless 802.11 b/g/n/ac/ax 2.4G/5G WiFi, BT5.0.
- Android 13 OS, OTA Upgrade support.

FIG. 22

Le Casting d'Ecran

Introduction:
Le TV Box vous permet de passer à la télévision les photos, la musique et les vidéos dans votre smart phone ou tablette.

Préparation:
Assurez-vous que votre(s) appareil(s) et le TV Box sont connectés au même réseau.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
