

Product Name: Magnetic wireless charger

Product Specifications:

Input: 5V/2A 9V/1A/2A

Output: 5W 7.5W 10W 15W(MAX)

Features: Wireless Charging, Magnetic Mount

Included Items:

1 x Wireless Charger with Magnetic Mount

1 x Charging Cable

2 x Metal Plates

1 x Vent Mount

Product Description:

The Car Wireless Charger with Magnetic Mount is a versatile in-vehicle accessory designed to offer a convenient solution for charging your devices and providing smartphone support while on the go. With its powerful 15W output, it meets your charging needs and ensures your smartphone stays charged during your journey.

Key Features:

Wireless Charging: This mount is equipped with a 15W wireless charging feature, compatible with most wireless charging-enabled smartphones. Simply place your phone on the mount, and it will automatically start charging without the need for cables.

Magnetic Mount: The magnetic feature secures your smartphone firmly in place, even on bumpy roads, providing a safe and stable usage experience.

Vent Mount: The product comes with a vent mount that allows you to easily attach the mount to your vehicle's air vent without the need for adhesive or additional installation steps.

All-in-One Design: The product includes a charging cable, two metal plates, and the mount itself. Everything you need is included, with no extra parts or accessories required.

User Guide:

Use the vent mount to securely attach the mount to your vehicle's air vent.

Adhere one metal plate to your smartphone or smartphone case.

Attach the other metal plate to the magnetic head on the mount.

Place your smartphone on the mount, and it will instantly magnetically attach and begin wireless charging.

Important Notes:

Ensure that your vehicle's air vent is suitable for this product.

Make sure the metal plate is aligned with the magnetic head on the mount for secure attachment and optimal charging.

Always stay focused and follow traffic regulations while driving.

Maintenance and Care:

Periodically check the mount and suction cup to ensure they are in proper working condition.

Avoid use in high-temperature and humid environments to ensure product durability.

Do not leave your smartphone on the mount for an extended period when not in use.

Product specifications and features are subject to change based on market demands.

This product manual is intended to provide you with a basic understanding of the Car Wireless Charger with Magnetic Mount. If you have any questions or require further support, please feel free to contact our customer service department. Thank you for choosing our product!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
