<p><b>FCC Statement</b>      Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:      —Reorient or relocate the receiving antenna.      —Increase the separation between the equipment and receiver.      —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.      —Consult the dealer or an experienced radio/TV technician for help.        This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.        Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.        The device has evaluated to meet general RF exposure requirement. The device can be used be in portable exposure without restriction.</p>	<p><b>hold for 3 seconds.</b>  <b>2) Turn off:</b> Put the earphones back into the charging compartment to automatically turn off or press and hold for 5 seconds.  <b>3. Pairing and disconnecting</b>  <b>1) Pairing:</b> After removing the headphones from the charging compartment, the left and right headphones will automatically turn on and pair; Open your phone, search for 'R510' and connect.  <b>2) Disconnect:</b> Disconnect the headphones from the phone or turn off the phone or disconnect remotely.</p>	<p><b>When the user's abnormal operation</b>      by touching the control area on the earphone without having to take out the connected to a single earphone or phone to control.      cannot search for a name, please put Click on the R/L touch area  <b>3) Turn on the phone and connect it back:</b>      both earphones back into the charging compartment, delete the pairing record  <b>Playing music:</b>      After removing the headphones from the charging compartment, if the left and right ears have been paired before, the left and right ears will automatically reconnect the phone according to the standard method.  <b>Answer/end calls:</b>      Double click on the touch area  <b>Call rejection:</b>      Double click on the L side to play the previous song  <b>4.
