3. When the charging case is low, it displays 00 and the display is off.

(Please note that you must use a 5V1A charging cable to charge the Bluetooth headset charging case or the charging cable delivered at the time of purchase)

### Precautions

1. Please do not treat this product violently, do not squeeze heavy objects, and stay away from high temperature and high humidity.
2. Stay away from WIFI, routers and other high-frequency transmission equipment, which will affect the signal reception of the machine, resulting in sound jams and disconnection.
3. Please use this product in an effective environment (10 meters), and there should be no physical obstruction (such as walls, etc.) directly from Bluetooth devices and headphones.
4. If the product is not used for a long time, the headphones and the base will be charged (within a month).
5. If there is a failure, please restart the headphones and press 1/2 point (to avoid causing misoperation)

### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
