| <p><b>EUT View 1</b></p> |  A photograph showing two cylindrical electronic units, one yellow and one brown, and a white USB cable. They are placed on a blue surface next to a black ruler with white markings. The ruler has two scales: one in centimeters (0 to 100) and one in millimeters (0 to 100). The yellow unit is on the left, the brown unit is in the middle, and the USB cable is on the right. The units have a lens and a small circular feature on their front face. |
| <p><b>EUT View 2</b></p> |  A photograph showing a single yellow cylindrical electronic unit and a white USB cable. They are placed on a blue surface next to a black ruler with white markings. The ruler has two scales: one in centimeters (0 to 100) and one in millimeters (0 to 100). The yellow unit is on the left, and the USB cable is on the right. The unit has a lens and a small circular feature on its front face.                                                     |

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>EUT View 3</p> |  A photograph of a yellow cylindrical electronic unit (EUT) from a front-facing perspective. The unit features a black lens in the upper center and a smaller circular port below it. A small gold-colored connector is visible at the bottom. The unit is placed on a blue surface next to a black ruler with white markings, which shows the unit's height is approximately 100 mm. |
| <p>EUT View 4</p> |  A photograph of the same yellow cylindrical electronic unit from a side profile view. The unit is smooth and cylindrical with a slightly wider base. A small white label is visible on the left side. It is positioned next to a black ruler with white markings, showing a height of approximately 100 mm.                                                                         |

|                          |                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>EUT View 5</b></p> |  A photograph of a yellow cylindrical electronic unit (EUT) against a blue background. The unit is positioned vertically next to a black ruler with white markings. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10). The unit has a small rectangular feature near the bottom edge. |
| <p><b>EUT View 6</b></p> |  A photograph of the same yellow cylindrical electronic unit from a side perspective. It shows a vertical seam down the center and a small circular feature on the left side. The unit is placed next to the same black ruler for scale, showing measurements in centimeters and millimeters.                       |

|                   |                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>EUT View 7</p> |  A photograph showing a yellow, circular object with a horizontal score line across its center. The object is placed on a blue background next to a metal ruler. The ruler has markings in millimeters and centimeters, with a 100mm scale visible. The object's diameter is approximately 40mm. |
| <p>EUT View 8</p> |  A photograph showing a yellow, circular object with a latch mechanism and two circular indentations. The object is placed on a blue background next to a metal ruler. The ruler has markings in centimeters, with a 10cm scale visible. The object's diameter is approximately 4cm.            |
