3

Instructions for Use

1.Power On

Press and hold the Power button for 3 seconds to turn on the printer

Note:

- Press and hold the Power button for 3 seconds to turn on/off.
- Press the Power button once to feed the paper.
- Press the Power button three times to print a self-test page.

4

Instructions for Use

2.Loading Paper

- Ensure the Master Sheet is on top and the Stencil Carbon Sheet is on the bottom.
- Hold the paper with both hands, making sure it is straight and properly aligned.
- Gently insert the paper into the printer's feeder, allowing the roller to pull it into the correct position.

Note:

If you need to remove the paper halfway through, lift the **flap** with both hands simultaneously and gently pull out the paper.

5

Display Screen Indicators

	Power-on
	Paper ready
	Printing
	Print complete
	Low battery warning
	Battery charging
	OTA upgrade
	Overtemperature warning

6

CAUTIONS:

- Printhead Care:** Regularly clean with an alcohol wipe for clear prints.
- Temperature:** Avoid exposing the printer to extreme heat.
- Battery:** Ensure sufficient charge for optimal print quality.

TROUBLESHOOTING:

- Bluetooth:** Check if Bluetooth is active, reconnect if needed.
- Clarity:** Unclear prints? Clean the printhead using an alcohol wipe.
Insert the wipe as regular paper and quickly press the power button three times to feed it through. Repeat as needed for thorough cleaning.
- Ensure proper paper alignment and reduce print density if it's set too high.
