EN-01

Specifications

1. Connectivity Channels: USB Receiver/ BT1/ BT2

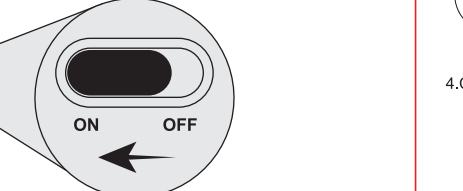

2. Operating Frequency: 2.4GHz

3. Operating Voltage: 3.7V

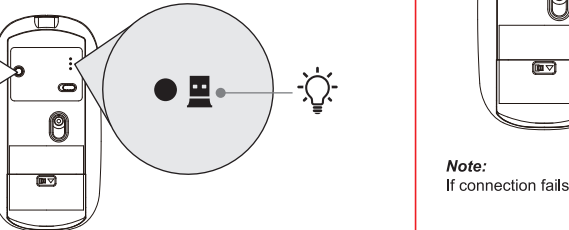

4. Operating Current: <5.5mA

USB Connection

1. Slide the Power Switch to "ON".

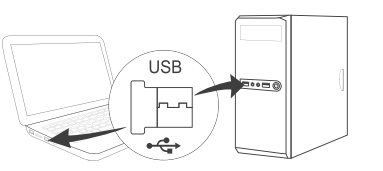

2. Press the Channel Switch Button to switch to USB mode (default). The USB Channel Indicator will flash green.

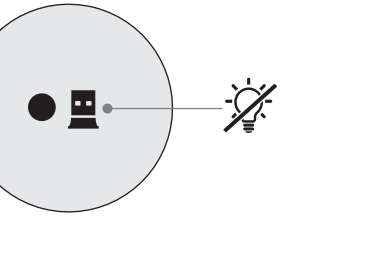

EN-02

3. Remove the USB receiver from the mouse and insert it into your computer.

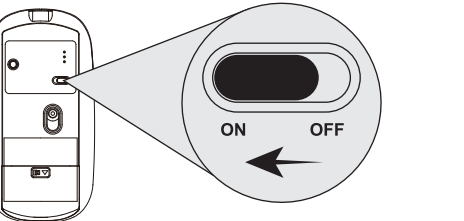

4. Connection is ready when the USB Channel Indicator turns off.

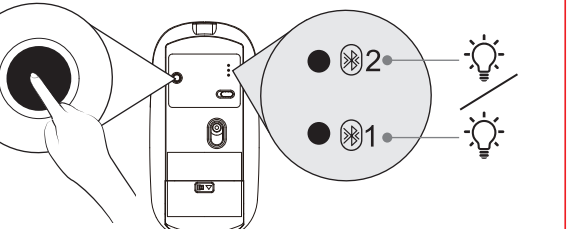

EN-03

BT Connection

1. Slide the Power Switch to "ON".

2. To select a BT channel (BT1 or BT2), short press the Channel Switch Button, and the corresponding BT indicator will flash blue.

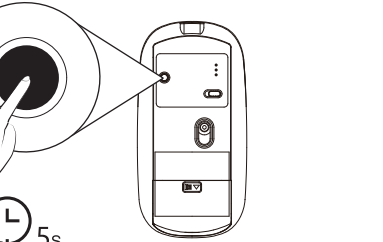

3. Check if the BT indicator is flashing rapidly.

● Rapid flashing → Skip to Step 5

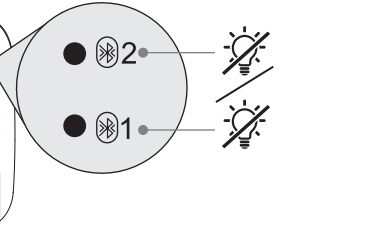

● Slow/No flashing → Continue to Step 4

EN-04

4. Press and hold the Channel Switch Button for 5 seconds, until the corresponding BT indicator flashes rapidly, and the mouse will enter the BT pairing state.

5. Turn on BT on your computer. Search and select "MS058 5.0" to start pairing.

6. When the indicator light is off, the BT connection is established.

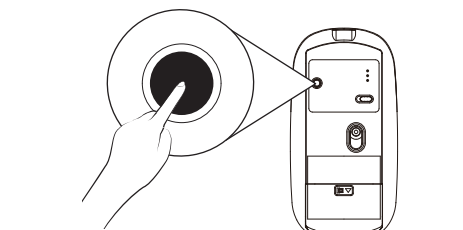

EN-05

Switching Connection Channels

1. The mouse supports 3 wireless connection channels: USB mode, BT1, and BT2, by which it can be connected to three devices at the same time.

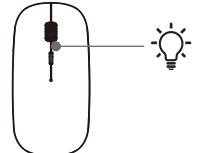

2. Once connected, short press the Channel Switch Button to view the current connected channel. Press it again to switch to a different channel.

EN-06

Battery Indicator

The Battery Indicator shows the following states:

Battery Indicator Status	Battery Condition
Red Light Flashing	Low Battery
Solid Red	Charging in Progress
Light Off	Fully Charged

IMPORTANT SAFETY INSTRUCTIONS-CAREFULLY FOLLOW THESE INSTRUCTIONS.

1. RETAIN THESE INSTRUCTIONS - This sheet contains important safety and operating instructions.

2. Before using the product, read all instructions and caution markings on the product, accessories, and device.

3. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

4. Children should be supervised to ensure that they do not play with the appliance.

5. Keep the product away from the fire to avoid an explosion.

6. Do not place the product in or near an inflammable, explosive, or hazardous object.

7. Do not operate the product with a damaged cord or plug.

8. Do not operate the product if it has been damaged in any way.

9. Do not disassemble the product. Disassembly may result in a risk of safety hazards.

10. Do not throw or shake the product.

11. Do not place the product in or near water, rain, excess moisture, or extreme heat.

Clear Pair Record

1. Turn off the mouse.

2. Press and hold the scroll wheel. Then turn on the mouse.

3. Wait until the indicator light flashes rapidly, then release the scroll wheel. This will clear the pairing records for both BT1 and BT2.

USB Receiver Reconnection

Connection issues may occur due to interference or environmental factors. If the mouse disconnects, follow the steps below to reconnect.

1. Unplug the USB receiver from your computer and ensure the mouse is charged.

2. Turn on the mouse, and then switch to the USB channel.

Limited 12-Month Warranty

Shenzhen Unichain Technology Co., LTD. (Manufacturer: "Unichain") warrants to the original purchaser of this TeckNet product that the product shall be free of defects in design, assembly, material, or workmanship.

What this warranty covers.

Unichain warrants the TECKNET product for **12 Months**.

What the period of coverage is.

Unichain warrants the TECKNET product for **12 Months**.

What will we do to correct problems?

Unichain will repair or replace, at its option, any defective product free of charge (except for shipping charges for the product).

What is not covered by this warranty?

All above warranties are null and void if the TeckNet product is not provided to Unichain for inspection upon Unichain's request at the sole expense of the purchaser, or if Unichain determines that the TeckNet product has been improperly installed, altered in any way, or tampered with. The TeckNet Product Warranty does not protect against acts of God such as flood, earthquake, lightning, war, vandalism, theft, normal-use wear and tear, erosion, depletion, obsolescence, abuse, damage due to low voltage disturbances (e.g. brownouts or sags), non-authorized program, or system equipment modification or alteration.

How to claim the warranty

Please contact retailers or visit TECKNET website or email support@ylinksworld.com for more information. To extend the warranty period, please visit TECKNET website and register your TECKNET products within **90 days** of purchase.

Disclaimer

Every effort has been made to ensure that the information and procedures in this guide are accurate and complete, no liability can be accepted for any errors or omissions and we reserve the right to make any changes without further notice to any products mentioned herein.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
