Attention

Please read this manual carefully before use and keep it for future reference.

- 1.The projector is non dustproof or waterproof.
- 2.In order to reduce the risk of fire and electric shock, do not expose the projector to rain and fog.
- 3.Please use the original power adapter. The projector should work under specified rated power supply.
- 4.When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
- 5.Do not cover the vents of projector. Heating will reduce the life of projector and cause danger.
- 6.Regularly clean projector vents, or dust may cause cooling malfunction.
- 7.Do not use the projector in greasy, damp, dusty or smoky environment. Oil or chemicals will cause malfunction.
- 8.Please handle with care during daily use.
- 9.Please cut off the power if the projector is out of use for long time.
- 10.Non-professionals are forbidden to disassemble the projector for testing and maintenance.

Miracast

Ensure that Android devices(phone, pad, ect) are in the same local wireless LAN with these devices.

Operations on Devices:

Setting-Device Preference-Whale OS Cast-Miracast-Click here to open Miracast: Turn on the phone mirroring-Connection.

Operations Android phone devices.

Airplay

Ensure that Apple devices(iphone, pad, ect) are in the same local wireless LAN with these devices.

Operations iphone devices:

Turn on the phone mirroring→Connection.

Safety instructions

- Please pay attention to important information related to the operation and maintenance of the projector. You should read this information carefully to avoid problems. Following safety instructions will increase the life of projector.
- Please consult the qualified personnel for installation and repair services, and do not use damaged wires, accessories and other peripherals.
- Projector should be kept away from flammable, explosive, strong electromagnetic interference (large radar stations, power stations, substations) ,etc. Strong ambient light (avoid direct sunlight), etc.
- Do not cover projector vents.
- Please use the original power adapter.
- Keep adequate ventilation and make sure vents are not covered to avoid projector overheating
- When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain.
- Do not bend or drag the power cord.
- Do not put power cord under projector or any heavy objects.
- Do not cover other soft materials on power cord.
- Do not heat the power cord.
- Avoid touching power adaptor with wet hands.

Disclaimer

This manual is general instructions, The pictures and functions in this manual should subject to the actual product. Our company is devoting to improve product performance, we reserve the right to modify product functions and interface described in this manual without notice.

Please keep your device properly. We are not responsible for any loss caused by wrong operation of software/hardware or repairing or any other reasons. We are not responsible for any loss of any third party claims.

This manual has been carefully checked by professional engineer, please understand for any inevitable omissions.

FCC Statement

- 1.This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1)This device may not cause harmful interference.
 - (2)This device must accept any interference received, including interference that may cause undesired operation.
- 2.Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Attention:

Please do not look directly into the lens when projecting to prevent the strong light doing harm to your eyes. Kids should use the projector under the supervision of adults.

IC Warning

The device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

RF exposure statement:

The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Déclaration d'exposition RF:

L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.

To reduce the potential for harmful interference to co-channel mobile satellite systems, use of the 5150-5250MHz frequency band is restricted to indoor use only.
