Long press L/R for 1.5 seconds

F&Q

1. Q: How come only one earphone has sound?

A: Put the two earphones back into the charging bin at the same time, close the cover to charge, and then take them out to see whether the dual-ear mode is restored.

If the fault is not rectified, restore the fault to factory Settings

2. Q: The phone can't connect to the headset?

A: Delete the paired TWS on the mobile phone, and then make the paired connection.

3. Q: How can I listen to music/talk without sound?

A: Android phones have a setting icon on the right side of the phone connection record. Click enter to select two audioDeselect and then re-select. Enter audio Call mode in Setting General Accessibility, and select Automatic, if it is automatic, then other options, and then change to automatic, if not restored, Delete the pairing record retry attempt.

4. Q: Why is there a stutter/stutter?

A: If you use headphones, there are a lot of Wi-Fi devices, 4G signals, high power appliances and so onInterference, stuttering and discontinuous conditions may occur, and the connection can be restored by changing the environment or re-pairing. .

Matters needing attention

1. Please use a charger with safety certification from a formal source for charging

2. Adjust the volume of headphones to avoid damage to hearing

3, the correct use of the product to avoid falling from high or heavy extrusion

4. Children should be accompanied by adults to avoid accidental ingestion

5. Stay away from extreme environments such as high temperature or humidity

6. Do not disassemble the product

FCC WARNING

This device complies with part 15 of the FCC Rules.Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC' s RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
