

User manual

This wireless charger can charge your Qi-enabled smartphone. Just simply place your smartphone on the rubber mat above the wireless charger. The wireless charger supports up to 15 W power delivery.

NOTE: The wireless charger may not work if your phone case is metal. Take the phone out of the case and place the phone on the charger.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Radiation Exposure Statement: This equipment complies with radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Frequency band in which the radio equipment operates: 127.58-128.01 kHz.

13.56 MHz

Model name: WSPC2

Manufacturer: BCS Automotive Interface Solutions, s.r.o.

Address: Jana Nohy 2048

256 01 Benesov

Max. Output: 15 W

Input: 24 V DC @ 1.5A

Operating Temperature: -40°C~85°C

Storage Temperature: -40°C~105°C

The Wireless Power Consortium (WPC) recommends adding an NFC reader to the wireless charging module. Once the NFC card is detected, it will stop charging to protect the NFC card.

FCC Caution.

a、 § 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

b、 § 15.21 Changes or modification warning.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

c、 § 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
