

model difference letter

Applicant, **HEIGHTS TELECOM T LTD**, declare that our products, the **Wireless Home Gateway**, and its models/items listed below: **HT-6766BDM, HT-6766BE**

HT-6766BE is based on HT-6766BDM with no changes to the layout or structure. The PHY chips for the two 10G Ethernet ports have been replaced with 2.5G PHY chips. The port markings on the casing are updated as follows: change "10G WAN" to "2.5G WAN" and "10G LAN" to "2.5G LAN". There are no other differences.

See the port images of the two models below for details.
