Notes

- It is recommended to use with a wall charger of 18W and above (Wall charger is not included).
- Disconnect the charger from the power outlet when not in use.
- Please use the provided charging cable to connect the charger to the power supply. Uncertified or incompatible power adapters and data cables may cause fire, explosion, or other hazards.
- Do not use this charger in an environment of high temperature, humidity, and strong magnetic field.
- Keep the charger away from people with pacemakers, defibrillators, or other implants at least 20cm away.
- Wipe this charger and accessories with a dry and clean cloth.
- Do not disassemble and repair this charger by yourself. Improper disassembly may cause electric shock or other safety hazards. If necessary, please contact after-sales service.

Specifications

FCC Warning Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to

provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF Exposure Statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
