

BATTERY-FREE WATER LEAK DETECTOR

SYSTEM OVERVIEW

LEAK DETECTOR 3.0

Low Power Consumption

Low Cost

 **AQUASENSING**
Self-Powering Sensor

ADVANTAGES

Battery-Free

Easy Install

Eco-Friendly

Maintenance Free

Highly Scalable

Cost Saving

AQUASENSING

BATTERY-FREE WATER LEAK DETECTOR

About Us

Aquasensings' Leak Detector is designed to **protect homes and businesses** from water damage caused by leaking pipes, appliances, roofs, and more. Our system sends **remote alerts** in the event of a leak.

Aquasensings' most unique characteristic is that our sensors **don't require batteries**, thus don't need maintenance and can prevent environmental threats of conventional batteries.

Bluetooth
Connection

BLE 5.2

Short
Circuit
Current
(SCC)

~ 6 mA

* : This baseline quantity can be affected by environmental obstacles which can result in radio signal interferences.

Certifications

Aquasensing uses battery-free technology and non-toxic nanomaterials for leak detection, enabling large potential for obtaining certifications.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
