Prime video</div></div></div> <div>-4-</div> | <div>IV.Connection</div> <div>Warning: As a safety precaution, disconnect the projector and all connected device before connecting the cables</div> <div><div>1. Turn on</div><div>Find the random standard adapter and remote control. Turn on the machine, turn on the red light during the power-on process, press the machine body startup key or the remote controller startup key, and then the indicator light goes out. After the startup logo appears, it enters the system interface and the machine starts to work.</div><div>2. Image focusing/trapezoidal correction</div><div>① Image focusing: After the projector is turned on, the main interface appears. When the projected picture is not clear, adjust the lens focusing ring until the projected picture is clear</div><div><div><div>Lens focusing ring</div></div></div><div>-5-</div></div> | <div>② Trapezoidal correction: When the projector is put up or down, the electronic trapezoidal correction function is needed to realize image normalization.</div> <div>(1) Manual trapezoid correction: Move the cursor to Setting in the main interface and Open Setting-Projection Setting- Horizontal/Vertical Correction.</div> <div>When the machine is projected up and down, you can use vertical trapezoidal adjustment (press Up and Down) to correct the corresponding value to normal picture. When the machine to the left or right projection, you can use the horizontal trapezoidal adjustment (press Left and Right) to correct the corresponding value to the normal picture</div> <div><div><div></div></div></div> <div>(2) Four-point trapezoid correction: Move the cursor to Setting in the main interface, and open Setting-Projection Setting- Four-corner trapezoid correction. (This function is needed when the machine tilts up and down, left and right directions at the same time).</div> <div>-6-</div> | <div>Four-point trapezoidal correction operation instructions: press OK to switch the four corners, and press the upper, lower, left and right direction keys to switch values after selection. After adjusting OK for one corner, press OK to switch to the next corner, repeat the above steps to adjust the four corners to be appropriate, and the picture is normal. (press Menu to reset)</div> <div><div><div></div></div></div> <div>3. Projector signal source input selection</div> <div>When the projector is connected with the external device interface, the projector needs to use the remote controller to move to the corresponding signal channel icon in the main interface, or press the channel selection key to select the corresponding input channel for connection, such as HDMI, MEDIA, etc.</div> <div>After the machine is turned on, the cursor of the remote controller can be moved to the corresponding position in the main interface, and the input signal source can be entered by pressing the confirmation key or directly use the remote controller to press the signal selection key to directly call out the signal channel and select the HDMI channel to enter.</div> <div>-7-</div> |

We apologize for the inconvenience caused to you, and we will change the operation mode caused by the interface and some functions without prior notice.</div> <div>FCC Caution.</div> <div>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</div> <div>Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</div> <div>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help.</div> <div>This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator/your body.</div> <div>UKA RoHS FCC CE</div> <div>MADE IN CHINA</div> <div>-16-</div> | Projection size (inch) | Screen length (CM) | Screen width (CM) | Lens-screen distance (CM) | 40 | 88.5 | 50 | 84 | 50 | 112 | 63 | 108 | 60 | 132 | 74 | 127 | 70 | 157 | 88 | 148 | 80 | 177 | 99.5 | 168 | 90 | 201 | 113 | 188 | 100 | 224 | 126 | 210 |
