Label Location

A detailed line drawing of the rear of a rectangular device. At the top right is a small square component. Below it, in the upper-middle section, is a rectangular label area containing manufacturer information, logos, and technical specifications. Below the label is a large battery compartment with two rows of terminals, each marked with a '+' sign. At the bottom of the device is a small rectangular port. A red arrow points from the label area in the diagram to the label area in the complex block above.

Label Area:
This outline drawing shows the label located in the rear side of the device above the battery compartment of the device.

The label is visible to the user during removal of the battery seal when first activating the device.
