## User Manual

Features

- **Six Access Methods**: Unlock via mobile app, voice control, NFC card, keypad, fingerprint sensor or physical key.

- **4-Month Battery Life:** Powered by eight AA batteries, the Smart Lock T02Pro operates for up to 4 months. Battery life may vary based on usage frequency.

- **Local Data Storage:** All sensitive data, including fingerprints, is securely stored on the device.

- **User Code Capacity:** Supports 1 programming code and up to 250 user codes.

- **Discreet Entry:** Anti-peep feature allows random digits to be added before or after your actual code.

- **Low Battery Alert:** Notifies you when battery power is running low.

- **Type-C:** When the battery inside the smart lock runs out of power, the lock can be powered through the Type-C port to unlock it.

How to Setup

1. Create an Account

Android: Search "TT" on Google Play.

iOS: Search "TT" on the App Store.

Alternatively, scan the QR code below to download the TT App.

Sign up and log into your account using your email address.

2. Registration and Login

Users can register an account via mobile phone or email.

The TT App supports registration in over 200 countries and regions.

A verification code will be sent to your phone or email; registration completes upon successful verification.
