Declaration Letter

FCC ID: 2BCMN-DPT156G101

This device is integrated with the certified module.(FCC ID: 2AC23-DCT85)

-The antenna is designed for the host, when the module is integrated into the final product.

-BT and BLE are disabled via software.

The original module test report accurately represents antenna-port conducted test results under the host application.

The Output power was verified to the same as the module. Refer to module report for antenna-port conducted test results.

For radiated test item, new test results were reported.

Sincerely,

KWANGJO KIM
MANAGER
