A, the battery ICONS shows no electricity.
B, automatic shutdown of the system or can't boot.
5. If the performance of machine needs to be Upgraded, please go to the our official website to download the latest firmware and upgrade tools according to the specifications "firmware upgrade" methods operation.

In using process, about 0.2 MM in diameter, black, white highlights (red dot or is green dots) will sometimes appear on the TET LCD screen. This is a normal phenomenon of TFT active matrix LCD screen, not the breakdown of machine or display. The main reason is that hundreds of thousands of pixels, its pixel is 1,200(X) × 234 (Y) = 280800 a (28 million pixels) are needed for the whole TFT LCD screen to show sharply color image and fine pictures. This phenomenon appears when each pixel closes or overlaps, so it is usually stipulated by companies like Toshiba, Panasonic, Hitachi, sharp, etc, that LCD screen possessing 3 highlights with a diameter of 0.2MM or less are qualified products

Wish using happy!

(1).The attentions

- This PC belongs to high precision electronic products, please do not disassemble.
- Avoid strong throw, collision of the PC
- Avoid using the PC in those environment: such as high/low temperature, humid, dusty strong magnetic field and long-term exposure to the sun.

(4).Technical specification

Brand	FUNYET
Model	FY3
System	Windows 11 pro
CPU Brand	Intel N95
Hot function	Bluetooth4.2
Expansion slot	M.2
Other interface	3.5mm headphone Jack,TYPE-C RJ45 4*USB 3.0, 2*HDMI、DP
Charger	Input:AC100-240V,50-60Hz Output: 19V= 3.42A
Size	145mm*116.5mm*42mm
Play format	Voice format: OGGI ACCI M4A, FLAC, AMR etc Videoformat: AVI, MKM MP4, M4M WEBM, 3G MPEG4 etc

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
