

Wrist-shaped animal-shaped walkie-talkie

### How to operate

US

1. Press and hold for 5 seconds "P" to turn on/off
2. Long press for 3 seconds "V+/V-" to change different channels and light colors. When the light color is consistent, press "V+/V-" to adjust the volume for the same frequency
3. When the same frequency is successful, press and hold "TALK" to speak
4. "CALL" is the call button, you can call the other party in the same frequency state, and the other party can answer the call after pressing "CALL" after receiving the call

### Product parameters

Working voltage: 4.5V  
Transmission power: 0.5W  
Standby current: 10mA  
Frequency: 462. 5625-462. 6125MHz  
Receiver sensitivity: less than -120dBm  
Transmission current: 300mA

**Battery life:** 48 hours  
Each intercom uses 3 AAA batteries  
Effective straight-line communication distance: 1000 meters

Friendly reminder: When the walkie-talkie is not in use for a long time, please remember to turn it off to save power.

**Attention:**

This radio complies with IEEE and ICNIRP exposure limits for General Population/Uncontrolled RF exposure environment at operating duty factors of up to 50% and is authorized by the FCC for General Population/Uncontrolled use only. An appropriate warning label is affixed to all units. In order to comply with RF exposure requirements, a minimum distance of 10 mm must be maintained when held-to-face and 0 mm must be maintained when next to Limb. Do not use this device when antenna shows obvious damages.

This product is in compliance to FCC RF Exposure requirements and refers to FCC website <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm> search for FCC ID: 2BCOJ-MQ-21 to gain further information include SAR Values.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
