5
A: Power Button

Turns the digital frame on or puts it into standby. Long press around three seconds for turning on/off,

short press for standby.

B: SD/SDHC Card Slot

Import photos to the digital photo frame from a SD/SDHC card (max 128GB), of which 64G and 128G

only support NTFS format.

C: Headphone/Speaker Port

Connect your headphones or speakers.

D: USB Port

Import photos to the digital photo frame from a USB drive (max 128GB).

E: Mini USB port

For after-sales service only.

F: Power adapter DC input(12V)

Plug in the power adapter for power.

G: Loudspeakers

Built-in loudspeaker.

H: Removable bracket slot

Plug in the the bracket and slide up to lock into place.

5 WALL MOUNT YOUR FRAME

You have two ways to mount your frame on the wall.

1) Drill two screws on the wall, leave a 10mm gap between the wall and the head of screw. Mount the frame onto

the screws by wall mount hole and slide down to lock into place.

2) Prepare a VESA mount bracket. Lock the VESA mount bracket into the VESA holes on the back side of the frame.

Then you can hang the frame on the wall.

NOTE: A VESA mount bracket is included in our merchandise.
6 IMPORTANT SAFETY PRECAUTIONS

- High voltage product. Please do not open the casing of the digital photo frame. Servicing of the frame should be done by qualified personnel only.

- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.

- To avoid permanent loss of data, do not insert or remove memory cards or USB devices when the frame is powered on.

7 SAFETY INSTRUCTIONS

- Do not expose the product to liquids or objects filled with liquids, such as vases. Use in a dry location only.

- Keep product away from open flames, such as candles.

- Keep the digital photo frame clean and never store it near a heat source or in dirty, humid, or wet places. Keep it out of direct sunlight.

- Do not drop the product. It may result in damage to the product and loss of data.

- Do not attempt to repair or disassemble the unit by yourself. Only qualified service personnel should perform repairs.

- The digital photo frame is for indoor use only.
- Use only the DC 12V/1.5A power adaptor supplied with this product. Do not unplug the adaptor while viewing the pictures.
- Do not block the ventilation holes on the back of the digital photo frame.
- Children should be supervised to ensure safety.
- To prevent overheating and damage to the screen, unplug the product when you do not intend to use it for a long period of time.
- Please insert the plug into the DC IN jack on the unit completely before connecting the AC adapter to an electrical outlet.
- Do not use the product in extreme temperatures over 105° F (40° C).
- Do not allow metallic objects to touch the DC plug when the digital photo frame is on.

8 CARE AND MAINTENANCE

- Always turn off the unit and remove the power adaptor from the electrical outlet before cleaning the unit.
- Use a soft dry cloth to clean this product.
- Never spray or pour liquids directly onto the screen or casing.
- Do not use abrasive materials or chemical cleaners such as alcohol, benzene, etc. Do not allow any water or other liquid to enter the device.
- Do not drop the device as the devices cannot withstand shock from falls.
- Do not hit or scratch the screen. Handle it with care. The LCD panel of the photo frame may be damaged due to excessive force or if it comes in contact with sharp objects.

GET YOUR FRAME READY

1 Hook on the frame stand on the back. You can place the frame either in landscape or portrait (we recommend you to place it in landscape during the first setup).
2 Connect the frame into the DC connector, and plug the power adaptor into the wall socket, the frame will turn on automatically, then you can follow the on-screen instructions.
GETTING STARTED

If you are new to using Uhale:

1. Power on; 2. Start by following the Uhale quick setup on page or follow the on screen guide.
Once you have set up your Uhale, start connecting with your friends and family.

Introduce the Uhale Frame

Uhale Frame displays wonderful moments shared by mobile devices. Touch-screen operation is easy to use, making sharing photos and videos smoother and more convenient.

Uhale Web

Uhale Web is a convenient and fast web-based photo sharing tool that allows users to log in and use without registering an account. It supports sending up to 500 photos at once, making it easy for you to share your precious memories.

Uhale App

The Uhale App supports rich features for both Android and iOS systems, allowing easy sharing with connected photo frames anytime and anywhere. No matter where you are in the world, you can send photos at any time.

Download the Uhale App

Download the App by scanning the QR code.
Find the Uhale App on:
Android: Search for "Uhale" on Google Play
iOS: Search for "Uhale" on the App Store

HOW TO USE UHALE FRAME

When starting your frame for the first time, you will need to setup the frame.

- •Uhale Frame may request to upgrade to the latest version. If so, it is recommended to upgrade the photo frame before proceeding.
- •Choose a language you preferred as default.
- •Connect the photo frame to the Internet via Wi-Fi.
- •Set the date, time and set the time zone if needed.
- •Name the photo frame (E.g. Jack's Frame).
- •Set the location of the photo frame (E.g. Living Room, Kitchen, Office).
- •Check the quick guide on the Uhale frame.
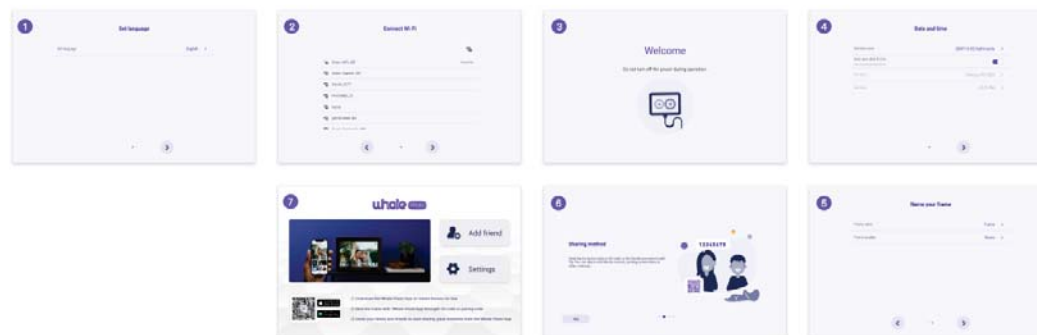

SHARE PHOTOS

You can share photos/videos in four ways.

Uhale App

You can download "Uhale" app from Google Play or App Store.
Before sharing, please connect Uhale app on mobile phone with the photo frame.

Connecting a new friend:

•Make sure that your friend has downloaded and installed the Uhale App.

•Click the "Add friend" icon on your frame . A dialog will appear and show both QR code and paring code (valid for 12 hours).

•Now share either the QR code or the paring code through your preferred way E.g. SMS, E-Mail, IM, phone call, to your friend.

•Once the frame is connected to your friend's Uhale App, you will be able to find them in "manage accounts" on the frame.

Uhale web

You can visit Uhale Web for sharing at: https://uhale.zeasn.tv.

Note: plese connect with the photo frame in "Uhale" App before sharing from Uhale Web.

•Scan code login

Visit the website to get access to Uhale Web: https://uhale.zeasn.tv

Note：Download, install and open the "Uhale" App on your mobile devices, and find the QR code under [Scan] to log in.

•Account Login

Support login to the web terminal by account password.

Note: Email account registration is not supported on the web version. You need to download, install, and open the "Uhale" App on your mobile device to register for an account.

•Visitor Login

Support login to the web terminal by visitor login, If you change browser or clear your cache, user data willnot be retained.

External storage（SD card）

You can copy photos and videos to SD card, then insert the SD card into the frame, and import photos to the frame through "Frame" – "Settings" – "Manage Photos" – "Import Photos".

Direct playback of photos from external storage（SD card）

You can play photos and videos directly from external devices without importing.

NAVIGATING YOUR FRAME

You interact with your frame through its touch screen.

Swipe left or right to go through your photos. To access the menu bar, simply tap once on the screen, this will show the menu.

In the menu you will find quick access to and .

From the menu it is also possible to make relevant settings for the currently displayed photos, such as and .

Connecting with your friend

SN and QR code are generated for device connection by tapping the icon .

Use either of the two to connect the frame with mobile devices to enable photo sending.

Gallery

Open the gallery and browse media sources in the gallery.

•In the gallery, you can view photos shared by different accounts;

•In the gallery, you can hide categories to view more photos;

FULL ONE YEAR MANUFACTURER

LOVFEEL warrants the product hardware components against defects in materials and workmanship when used in accordance with the company's documentation for a period of ONE YEAR after the date of original purchase from the company. If a hardware defective arises and a valid claim is received within the Warranty Period, at its option and to the extent permitted by law, Company will either (1) repair the hardware defect at no charge, using new or refurbished replacement parts, (2) exchange the product with a new or manufactured from new or serviceable used parts and is at least functionally equivalent to the original product or (3) refund the purchase price

We only cover warranty for purchase made within the USA, Canada.

OBTAING WARRANTY SERVICE

Please access and review the online help resources referred to in the documentation accompanying this hardware product before requesting warranty service. If the product is still not functioning properly after making use of these resources, please contact our representatives at support@lovfeel .com. No replacements will be sent out by the manufacturer until the returned item is received.

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
