Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) component, likely a module, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component features various electronic components, including a large yellow rectangular area, a small black component, and a gold-colored connector on the left side.
Antenna View 1	 A photograph showing the internal components of a device, specifically the antenna assembly, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the components, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The components include a black plastic housing, a red circular component, and a yellow rectangular component labeled "RC153 ASQ.D". Red lines with labels point to specific components: "GPS Ant" points to the yellow component, "GSM/WCDMA/LTE Ant." points to the black housing, and "LTE RX Ant." points to a small component on the right.
