Floor 1, No. 3 Xiangshan Road, High-tech Development Zone, Guangzhou, China

Date: 2023-09-15

FEDERAL COMMUNICATIONS COMMISSION  
AUTHORIZATION AND EVALUATION DIVISION  
7435 OAKLAND MILLS ROAD  
COLUMBIA, MD 21046

SUBJECT: FCC Application for FCC ID: 2BCTM-BDH200

**Statement**

To Whom It May Concern:

Since the use environment of the product is outdoor, it may be in a high temperature, humidity, corrosive environment, the antenna using the glue dropping process can effectively prevent the humid and corrosive air from entering the shell, ensure that the antenna is permanently connected to non-removable accessories, and is the only connector antenna, thereby improving the overall performance of the product;

Special Note:

The glue dispensing position is the interface position between the antenna and the equipment, and it's the final product shipment status, ensure the antenna is fixed and not removable;

Sincerely,

Signatory *Michael Yang*
