

	■ Instructions For Use Please read the instructions carefully before using the product. The lock can only be used after the battery is installed and the power is on. The lock can only be used after the battery is installed and the power is on. The lock can only be used after the battery is installed and the power is on.	■ Product Functional Characteristics The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Schematic Diagram Of Product Structure The lock is composed of the following parts: 1. Lock body 2. Remote control 3. Mobile app 4. Physical key 5. Fingerprint 6. Face recognition 7. Voice control 8. Smart home integration	■ Product Specification And How To Operate The Lock The lock is designed to be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Operating Process The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Installation The lock can be installed in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Preparing Door The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration
① Install External Lens and Strike Plate The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	② Install Remote Assembly The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	③ Install Remote Assembly The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	④ Install Remote Assembly The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑤ Install Remote and Lens The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑥ Testing Operation The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑦ Test Smart APP Instructions The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑧ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration
⑨ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑩ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑪ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑫ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑬ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑭ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑮ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	⑯ Add the lock to your APP The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration
■ Operating process The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Precautions The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ FCC Statement The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration	■ Warranty The lock can be used in the following ways: 1. Remote control 2. Mobile app 3. Physical key 4. Fingerprint 5. Face recognition 6. Voice control 7. Smart home integration
