Only for indoor use!

Make sure that this unit will not come in contact with kids!

This unit is not a toy!

1. Technical Specification

Lamp

Protection Class : Class II

Model	Rated Voltage (V)	Rated Wattage (W)		
Twin	DC 24V 0.65A	15W		
full	DC 24V 0.65A	15W		
queen	DC 24V 0.65A	15W		
king	DC 24V 0.65A	15W		
twin-add-01	DC 24V 0.65A	15W		
full-add-01	DC 24V 0.65A	15W		
queen-add-01	DC 24V 0.65A	15W		
king-add-01	DC 24V 0.65A	15W		

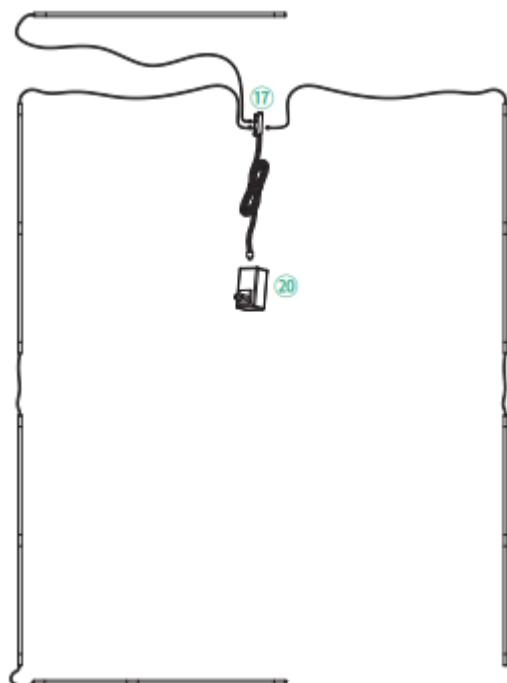

2. Before use:

Please read the following information carefully so that errors do not lead to any functional problems or any hazards. Make sure that the required voltage/power (DC24V Min 0.65A) power supply for the lamp corresponds, otherwise do not assemble or connect the lamp.

3. Important Safety Information

3.1 Take the lamp out of packing carefully and get rid of plastic packing bag.

Install the lamp according to picture (picture is provided)

- 3.2 Use the lamp only with the original delivered parts and as described in this manual

To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.

Shaoxing Puer Electrical Co.,LTD

Adr: No. 398, Tongjiang Road, Cao' e Economic Development Zone, Shangyu District,
Shaoxing City, Zhejiang Province.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
