26750 RPET Mousepad with Wireless Charger

User Manual

It is recommended to read this user manual carefully and keep it for future reference.

Product Overview:

Type C Port

Specifications:

Input: 5V/2A, 9V/2A

Output: 9V/1.1A

Power: 5W,7.5W,10W

1m cable with Type-C connector is included.

Operation:

1. Connect the Type C cable to the Type C port on the wireless charger and the other end of the cable into a USB port or into a USB AC adapter.

2. Place your device on top of the wireless charger, ensuring that it is face up and centrally positioned.

Note: If your phone has a protective case you may need to remove it for a successful connection when using the wireless charger.

Warnings:

1. Do not expose this product to rain or damp conditions.

2. Prevent this item from falling as it could cause serious damage.

3. Do not dismantle, repair or modify this product by yourself, contact an authorized specialist.

4. In order to avoid any risk, do not dispose of this product inappropriately or throw it into the fire.

5. Clean it with a dry cloth.

6. Do not place this item near sources of heat or expose to direct sunlight.

7. Do not insert any metal objects into this device as there is a risk of causing a short circuit in the unit.

8. To avoid risk, do not place any metal objects between the charger and the mobile device during the charging process.

9. Do not use mobile devices with a metal case.

SAFETY WARNING

In order to prevent conditions that can lead to overheating, please make sure that the wireless charging pad surface is free of all metal objects at all times, such as coins or paper clips. In addition, before charging, please remove anything metallic attached to the back of the phone, such as battery cases, ring holders, or plates used for mounting to magnetic phone holders.

FCC

MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC/ISED RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
