Apple CarPlay

Apple CarPlay allows you to make calls, send or receive messages, and listen to music using your iPhone with the Mazda Connect, or search for destinations using the maps. In addition, voice recognition using Siri is available.

WARNING

Do not allow the cord connected to the USB port to get tangled in the selector lever/shift lever.
If the cord gets tangled, it could be a distraction to your driving and result in an unexpected accident.

⚠ CAUTION

➢ Do not place items or apply force to the USB port or console box lid with the plug connected.
➢ Depending on the mobile device to be connected, noise may occur when using the device with it connected to the accessory power socket equipped on the vehicle (if noise occurs, do not use the accessory power socket).
➢ Do not leave your iPhone in the cabin. Otherwise, the cabin temperature will increase to a high temperature under direct sunlight which could cause damage.
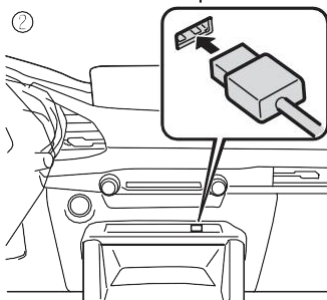

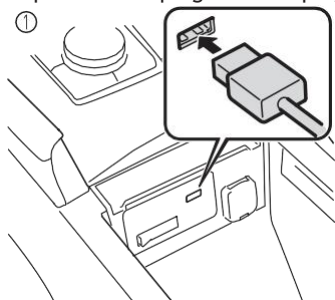

NOTE

· Before use, carefully read the user instructions for the iPhone.
· Do not use the Mazda Connect for a long time with the engine stopped. Otherwise, the battery power could be depleted.
· Insert the Apple-genuine connector cord into the USB port securely.

1.   Turn on Bluetooth on your phone and search for the name of Carplay Box**

2.Open the mobile phone's wifi and connect it Carplay Box**

Connecting an iPhone

Insert an Apple-genuine connector cord into the USB port and connect the iPhone.
Insert or pull out the plug with the plug perpendicular to the USB port.

1. Located on centre console
2. Located on front console

The location of the USB port differs depending on the vehicle model.

NOTE

· When an iPhone connected to Bluetooth® is connected to the vehicle's USB port, the system switches to Apple CarPlay. Applications that you were using when connected to Bluetooth® can continue to be used. However, the functions that can be used with a Bluetooth® connection and the functions which can be used by Apple CarPlay differ depending on the application.

Connecting Apple CarPlay for the first time
When connecting Apple CarPlay for the first time, a confirmation screen concerning Apple CarPlay activation is displayed.
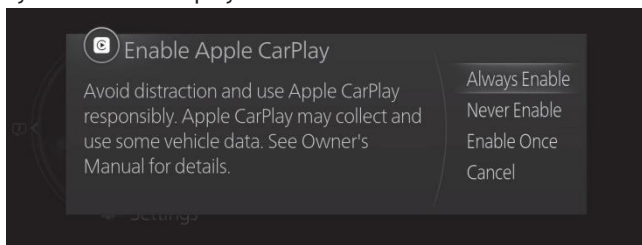

Always Enable: Enables Apple CarPlay each time without a confirmation.
Never Enable: Disables the currently connected device hereafter.
**Enable Once**: Enables the device only this time.
Cancel: Disables the device this time.

NOTE
If you select "Enable Once", the confirmation screen is displayed again the next time the engine is started.
However, if the interval between stopping and starting the engine is short, the confirmation screen may not be displayed.

FCC Warning Statement:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.
