Family Model Letter

There is no difference in appearance between the base and derivative models; the reason for adding the derivative model is simply for sales purposes.

Type	Type
Basic model : AirFit 01	Derivative model : AirHearty 01
 A white, circular device with two small ports on the side, placed next to a yellow measuring tape on a wooden surface.	 A white, circular device with two small ports on the side, placed next to a yellow measuring tape on a wooden surface.
 A white, circular device with a red center and a white top cap, placed next to a yellow measuring tape on a wooden surface.	 A white, circular device with a red center and a white top cap, placed next to a yellow measuring tape on a wooden surface.

Sincerely,

LIM SEUNG WOOK / General
