

Air Fit User's Guide

2023.08

Airbox

1. What is Air Fit?

- ✓ Air Fit is a home training air exercise equipment that uses an air mat.
- ✓ You can do jumping or balance exercise on the air mat
- ✓ Possible to manufacture air mats with various designs and image printing
- ✓ Real-time feedback on jumping exercise status with a dedicated smart app.
- ✓ Provides various game applications for fun exercise

2. Air Fit Product Composition

- ✓ Air Mattress: Air mat made of double space paper (100*15cm)
- ✓ Sensing device: A device that detects movement status
- ✓ Air Fit Application: Provides various games such as 1 person, 3 people, and teams

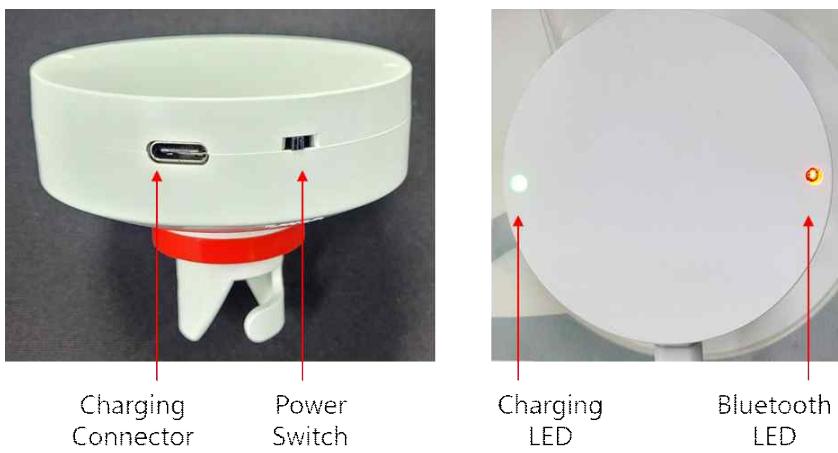

3. How to Use

3-1. Air exercise mat installation

- Spread the air exercise mat on a flat floor or table.
- Inject air so that the internal pressure becomes 80~90mbar using an air pump.
- Connect the sensor device to the air inlet

3-2. Use of sensor device

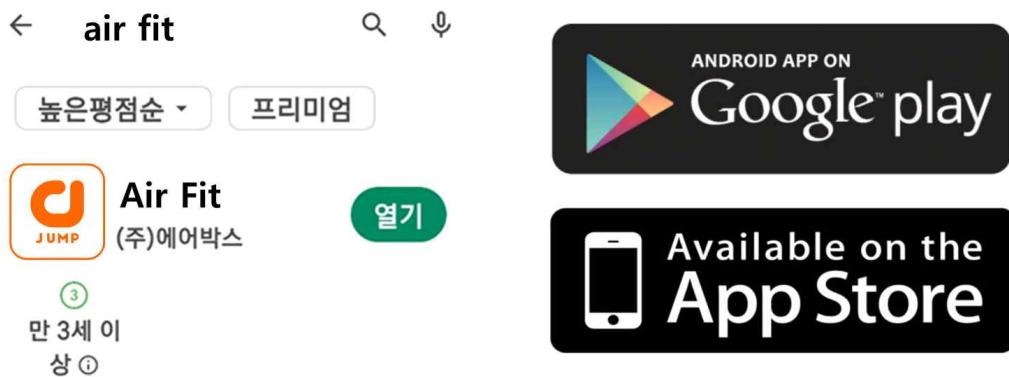

- If charging is required, insert the USB-C Type connector into the charging jack.
- If you lift the power switch in the opposite direction of the charging jack, the sensor device turns on.
- When the sensor device is turned on, the red LED blinks and searches for the smartphone Air Fit app.
- When the sensor device is connected to the Air Fit app, it stops blinking and turns red.
- The red LED turns off automatically if it is not connected to the app within 3 minutes.

- ✓ When the charging cord is plugged in, the green LED turns on.
- ✓ When the battery is fully charged, the charging LED turns off.

3-3. Install the Air Fit App.

- ✓ Search for Air Fit in Google Play Store or Apple App store and install it.

4. Sensor device specifications

- Size : 7cm * 5.5cm
- Material : PC + ABS
- Power : DC 3.3V Li-ion polymer battery
- Charge : USB-C Type
- Wireless : Bluetooth 5.0
- country of manufacture : Korea
- company of manufacture : Airbox

5. Manufacturing and Sales company

Company	AIRBOX
Address	182, 577Beon-gil, Neungheodae-ro, Namdong-gu, Incheon, Korea

FCC Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance Information : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
