C200 finger ring magnetic suction charging bank

Please read the following before using this product:

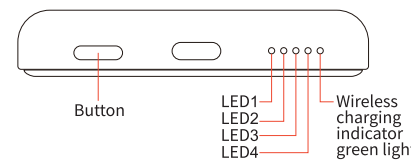

1. How to place the magnetic charger:

Keep your phone centered on the wireless charging pad when charging wirelessly. If the phone does not begin charging right away, adjust the position until its charging icon appears. Refer to the figure below for proper device placement.

2. Charge & Discharge Instructions:

When discharging, the indicator displays the battery level as follows:

Battery Level	LED1	LED2	LED3	LED4
0-25%	On	Off	Off	Off
25-50%	On	On	Off	Off
50-75%	On	On	On	Off
75-100%	On	On	On	On
Undervoltage	Off	Off	Off	Off

Low-current discharge:

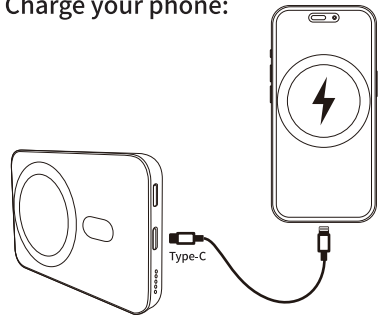

Press and hold the button to enter low current mode for 5 hours. This mode can be used to charge small devices such as Bluetooth headsets. Long press again to exit low current mode.

When charging, the indicator displays the battery level as follows:

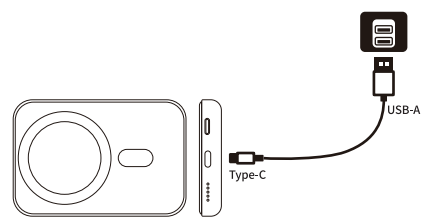

Battery Level	LED1	LED2	LED3	LED4
0-25%	Blinking	Off	Off	Off
25-50%	On	Blinking	Off	Off
50-75%	On	On	Blinking	Off
75-100%	On	On	On	Blinking
Fully Charged	On	On	On	On

Green Light	Magnetic Charger Working Status
On	Working
Off	Not working

3. Product parameters:

Capacity	3.85V/5000MA/19.25WH
Input Port	Type-C
Output Port	Type-C/Wireless Charger
Type-C Input	5V/3A, 9V/2A,12V/1.5A
Type-C Output	5V/3A, 9V/2.2A,12V/1.67A
Wireless output	5W,7.5W,10W,15W
Product size	3.96x2.65x0.61in
Product weight	4.43oz
Button	click to switch on, double click to switch off, long press to enter small current mode for 5 hours

The following basic precautions should always be observed when using this product:

- Fully charge this product before using it for the first time.
- Do not disassemble, crush, puncture or short-circuit this product or expose it to liquids, fire, stoves, heaters, and other sources of heat or temperatures above 140°F (60°C).

3. When this mobile power appears to be bulging, deformed, leaking, or the capacity is significantly reduced, please stop using it immediately and dispose of it properly.

4. When using the magnetic charger to wirelessly charge a device with a protective case, please make sure that the protective case is non-metallic and not more than 4 mm thick.

5. When the mobile power is not used for a long time, please keep the battery level at about 25-50% and store it in a cool and dry environment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator & your body.
