## GOOD PRACTICES

To ensure your Raise 2 works in an optimal way, we recommend following these practices:

1. Do not connect the Raise 2 to a USB hub.

2. Download the latest software at Dygma.com/bazecor and upgrade the firmware.

3. To split the keyboard, pull each side in the opposite direction.

4. Be careful with liquids, they could damage the electronics.

5. When mounting new switches, don't push too hard if you feel resistance. You could damage the PCB.

DYGMA RAISE 2
USER MANUAL

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This products FCC ID's: 2BCZSDYN2-23, 2BCZSR2KL-24, 2BCZSR2KR-24

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

OPEN SOURCE LICENSES

Some parts of the firmware and software are under GPLv3 license. To learn more and read the full license, check Github.com/Dygmalab

WARRANTY

Your Dygma Raise 2 has a 2-year warranty from the day you receive it.

The warranty is voided if you open the Neuron, tamper with the electronics, or any other misuse, including liquid contact.
