## 2. production information:

Product Name : Phantom light strip

Model Name : DD-a

Series Model : DD-b, DD-c

Input Voltage : 3.7V

Manufacturer:Zhongshan Anmi Lighting Technology Co., Ltd

Address:5th Floor, No. 6 Juyuan South Road, Lianfeng

Community, Xiaolan Town, Zhongshan City

## 3. Installation:

Step1:Rip off the protective film.

Step2:Press the power button before use.

Step3:insert the spike into connecting rod

Step4:Assemble the solar panel to cradle

Step5:Make sure the panel are fully exposed to the sun

## 4. product function introduction:

The solar panel MUST be installed in a well-lit location where it can receive maximum sun light during daytime hours. Any cover that shades the panel will affect its ability to absorb sunlight and decrease the amount of brightness and duration of the LED lights. The lights and solar panel box are all weather devices. They should not be affected by exposure in rain, snow or temperature. Suitable for gardens, lawns, flower beds, passageways, doorsteps, or any other place you want.

## 5. Information to user:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the

equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

The label indicates that the product contains a button battery
