Note:

1. Please refer to Operation Description for new and old PCB boards & without finger or with finger.
2. For the difference between the old and new models, it is only a minor difference in the non RF circuit. Please refer to the Operation Description for circuit differences.
3. For the differences between new added models, please refer to below screenshot .

4. HVCONXMXXXXAXL0000U: after "U" without letter, it represent "With finger needles and old PCB board"
HVCONXMXXXXAXL0000U: after "U" with letter "A", it represent "With finger needles and new PCB board"
HVCONXMXXXXAXL0000U: after "U" with letter "B", it represent "Without finger needles and old PCB board"
HVCONXMXXXXAXL0000U: after "U" with letter "C", it represent "Without finger needles and new PCB board"
