Watch manual

1.Install APP

1.1 Before using this device, please download the app on your phone for installation. IOS can be downloaded by searching for 'Lefun health' in the APP Store;

Using Android phones from Huawei, Xiaomi, OPPO, and VIVO, you can search for "Lefun health" and download it in the application market;

You can also search for links in the browser or scan the following QR code, select the corresponding operating system of the phone, and then jump to download (IOS 9.0 or Android 5.0 or above)

If the watch software or app is not the final version, it may affect the use of the watch or app. Please upgrade the app and watch software to the current latest version first.

Watch software version upgrade: APP-Device-Firmware upgrade-Firmware update Mobile APP version upgrade: APP-My-About-Detect updates

1.2 Connect watch

(1) Scan Code Connection:

After the watch is turned on, open Settings QR code, click on the QR code to view and download the APP QR code and Bluetooth connection QR code. Click "Scan" in the upper right corner of the app to scan the watch QR code and directly connect and bind the device.

(2) Manual connection:

Open Settings - About, display the device name, click Add Device on the APP, scan to the corresponding device, and click to connect directly.

Note: When the IOS end needs to change the phone connection, after deleting the current device in the APP, disconnect and ignore the device in the phone settings - Bluetooth - Device (right i-symbol) - to reconnect the device.

1.3 Connection status

After completing the above operation, slide on the device dial interface and you will see the"Bluetooth" icon lit up, indicating successful connection.

2.Connect Bluetooth

The watch is not connected to classic Bluetooth for a long time, while classic Bluetooth is turned

---

off. After connecting the app to the watch, Classic Bluetooth will automatically open and connect; When classic Bluetooth is not connected the call function and music playback function cannot be used.

When the watch is connected to the APP, the watch data will be synchronized with the APP through BLE Bluetooth, such as messages, weather, contacts, step counting, sleep, etc. After disconnecting or unbinding, data will not be synchronized.

matters needing attention

The measurement results of this product are for reference only and are not intended for any medical use or basis. Please follow the doctor's guidance and avoid self diagnosis and treatment by measuring the results at once.

2. This product cannot be used for deep diving or prolonged immersion in water. In addition, this product is not resistant to hot water, as water vapor can have an impact on the watch.

3. Our company reserves the right to modify the content of this manual without prior notice. Some functions may differ in the corresponding software versions, which is normal.

Pay attention to the danger

1. Do not charge in a damp and watery environment.

2. Please ensure that the back of the watch is clean and in complete contact with the surface of the

wireless charger when charging.

3. Due to the presence of magnets inside the charging base, it is inevitable to adsorb metal and other foreign objects. Please regularly clean the back of the watch and the surface of the wireless charger with a clean cloth to ensure complete contact between the watch and the surface of the wireless charger to ensure normal charging; Prohibit prolonged exposure of the charging base to high temperatures, which may cause demagnetization and other abnormalities of the charging base.

4. This product is not equipped with a power adapter. When charging with a power adapter, a charging base and adapter that comply with national/regional regulations and international and regional safety standards should be used to charge the device. Other chargers and mobile power supplies (power banks) may not meet applicable safety standards, resulting in slow charging and heating issues. Please use them with caution.

5. Batteries (or battery packs) should not be exposed to high temperature environments for use.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

· Reorient or relocate the receiving antenna.

· Increase the separation between the equipment and receiver.

· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
