

Product Name: Wireless Charging Dock

Product parameters: Input: 100-240

Power: 3 V

Applicable products: Cordless electric toothbrush

The output power of the power adapter is equal to the rated power of the electrical equipment.

For the fastest and safest charging, please note that the voltage must be the same as the electronic device.

take note of

Attention / Caution / Cautionary Measures / Heart Precautionary Measures / Precautionary Measures.

Do not touch liquids

Do not contact with liquids

Do not expose to moisture

Do not disassemble

Do not disassemble if it is dangerous

Do not disassemble the unit, do not disassemble it.

Avoid dropping

Avoid dropping the product

Please don't give it too much of a shock

Avoid extreme temperatures

Avoid high or low temperatures.

Do not use in extreme temperatures

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.

certificate of conformity

This product has been tested to meet the technical conditions, allowed to leave the factory
