RECHARGEABLE LI-ION BATTERY 1.5V AAA TYPE

Bluetooth Communication lithium-ion rechargeable battery 1.5V
lithium-ion battery that can be recharged anytime, anywhere by
connecting to a dedicated charger with AA type

Main Function

- Toys, watches, electric toothbrushes, and other small appliances batteries
- It has the same function as a disposable battery and can be recharged using a dedicated charger
- Check the battery level through the dedicated app
- Battery capacity : 1850mAh
- LED when charging the battery
- Protection for overheating, overcharging, and over-discharge
- Function for overpower shutdown (failure prevention)

Battery Type	Single Cell Li-ion Battery
Model	BLB-AAA740B (1.5V 690mAh 1035mWh)
Battery Size	44.0mm X 10.0mm (H X D)
Apperance	White and Blue

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

“Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment”.

“This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

“In order to comply with FCC RF Exposure requirements, this device must be installed to provide at least 0.5 cm separation from the human body at all times.
