

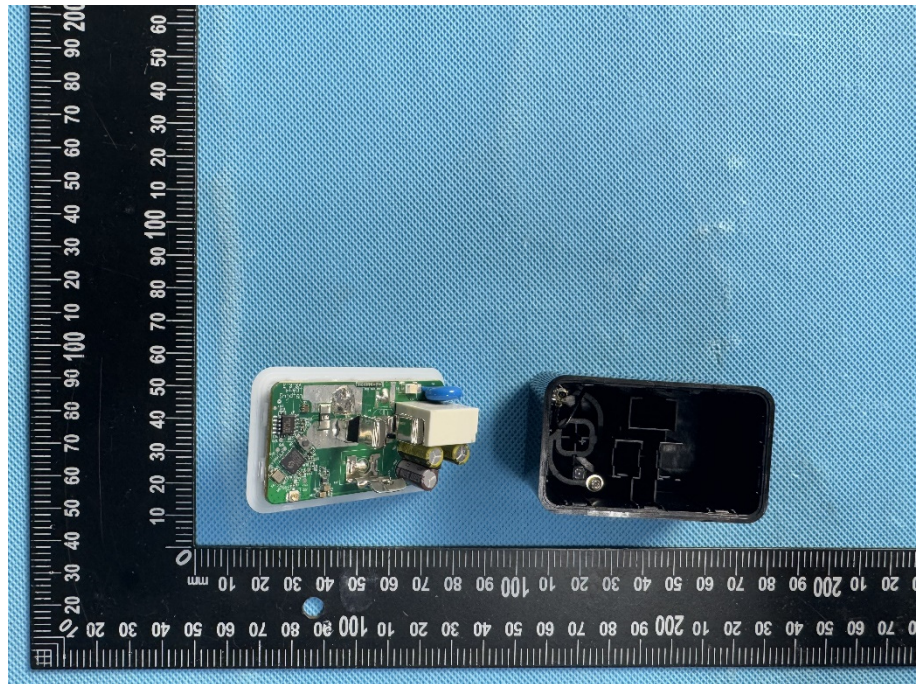

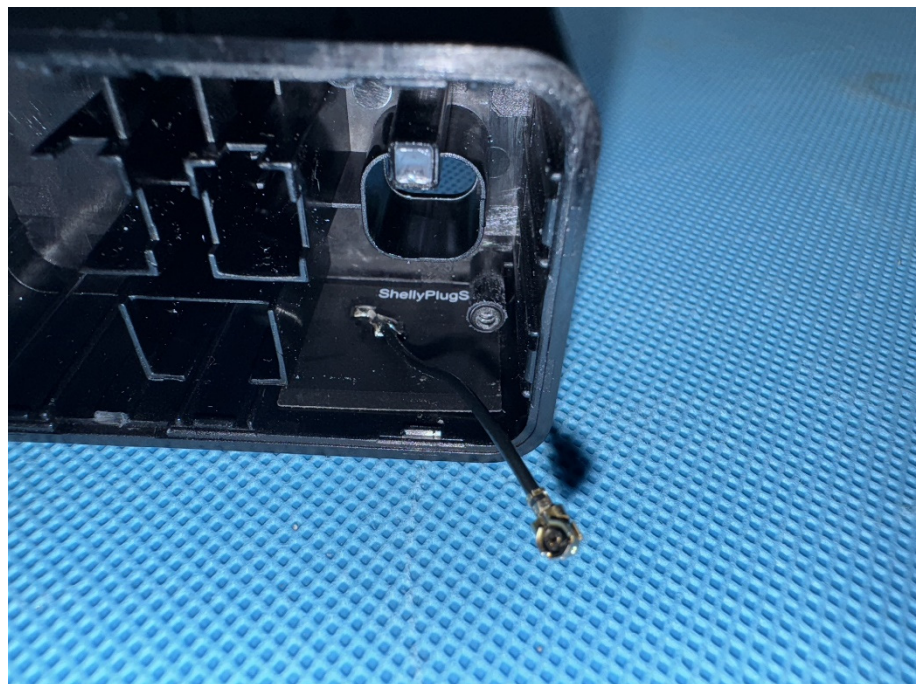

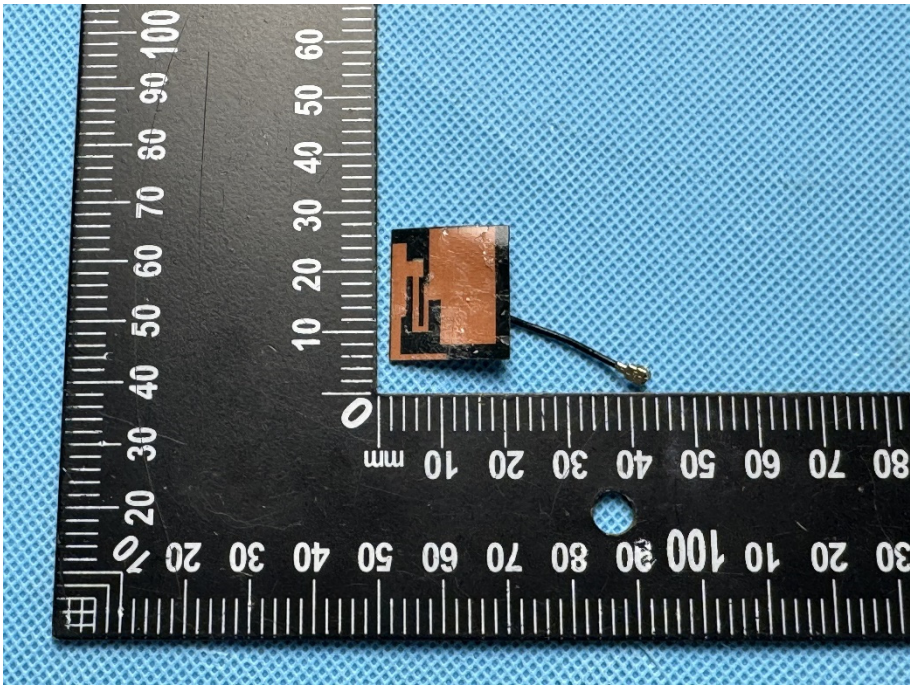

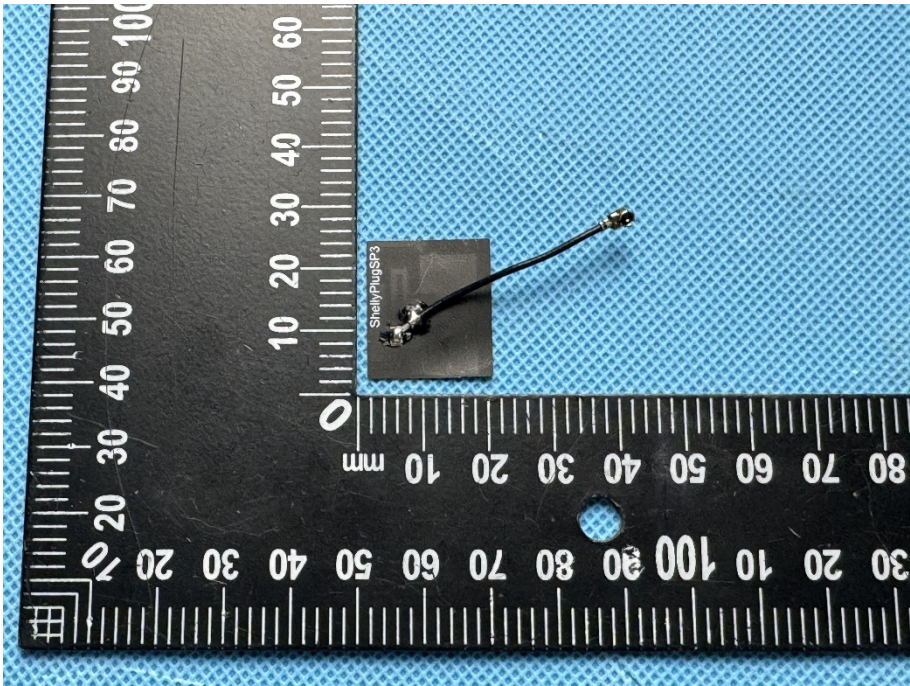

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

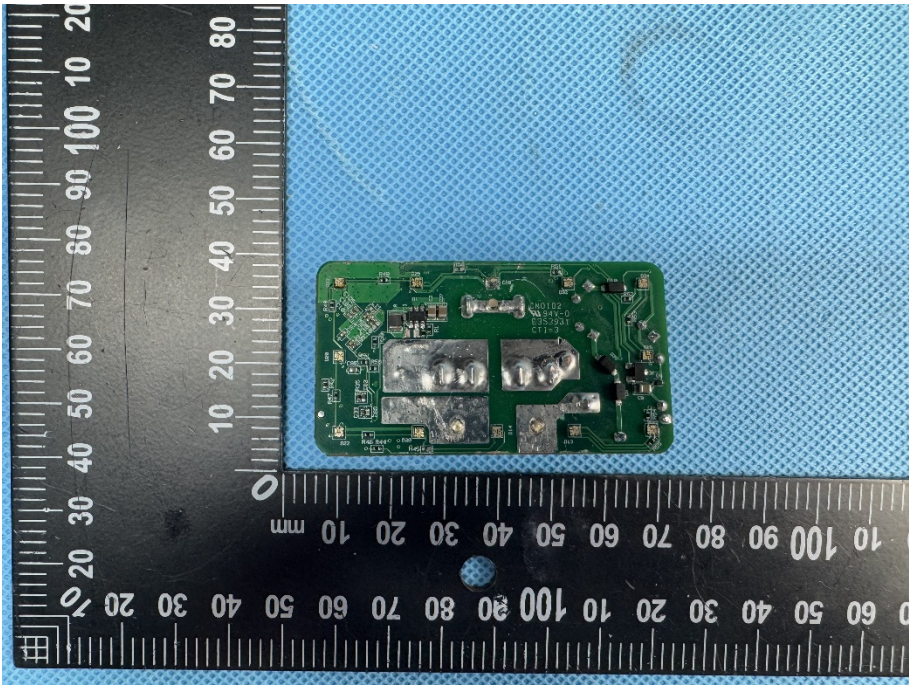

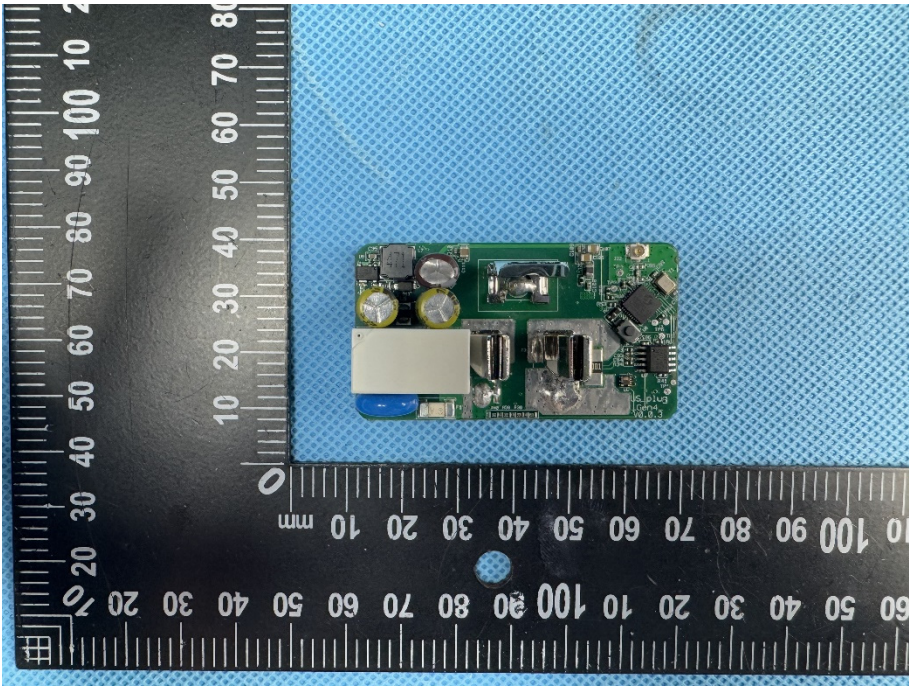

**EUT Housing and
Board View 1**

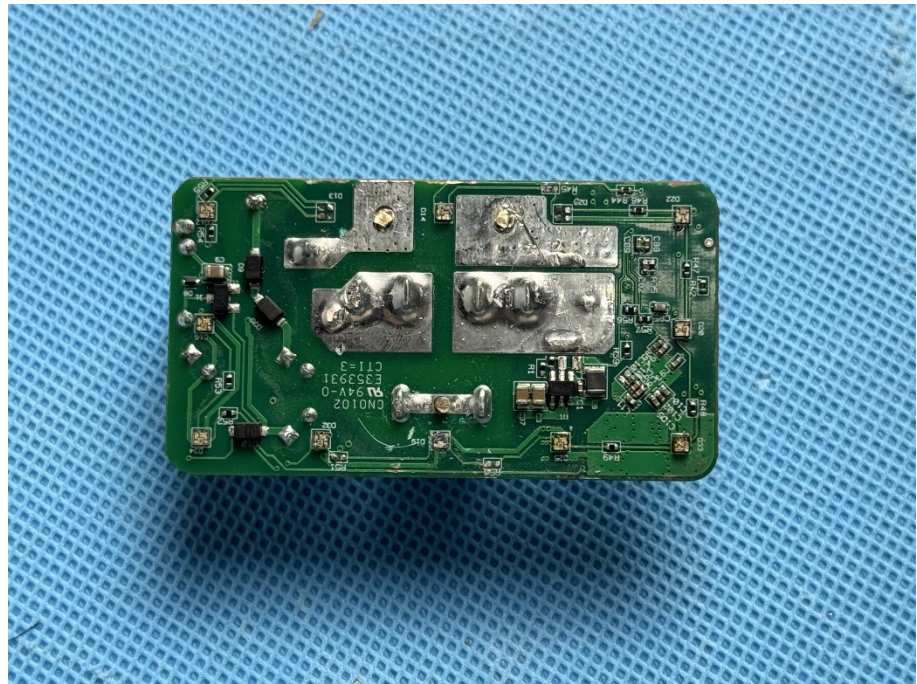

**EUT Housing and
Board View 2**

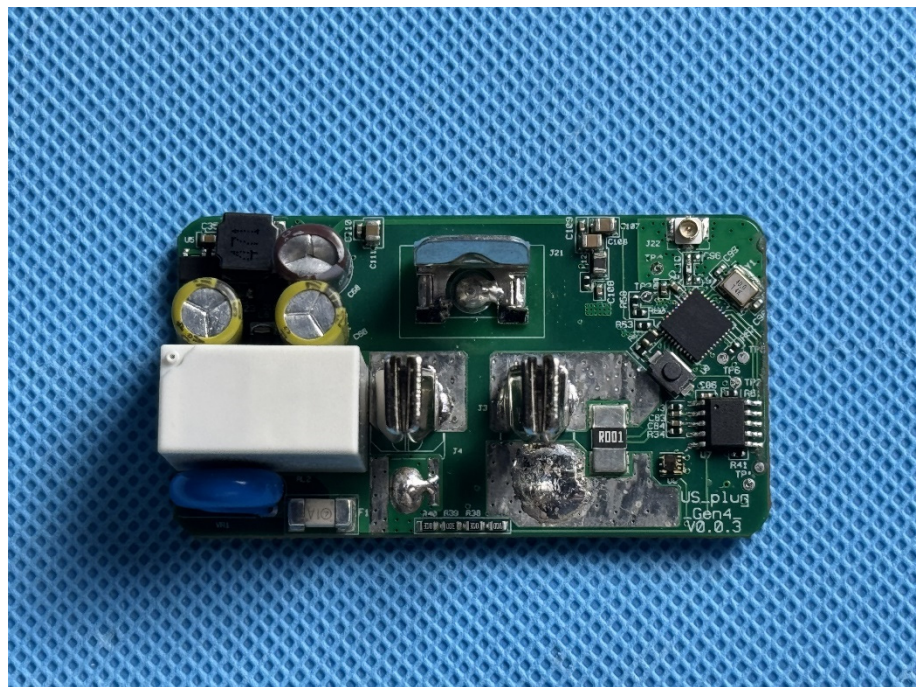

Solder Board-Component View 1	 A photograph showing a small, square, copper-colored solder board component with a black wire attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 10 mm mark on the ruler.
Solder Board-Component View 2	 A photograph showing the same solder board component from a different angle. The component is a square with a black wire attached. The wire is labeled "Shelly Plug SP3". The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is positioned near the 10 mm mark on the ruler.

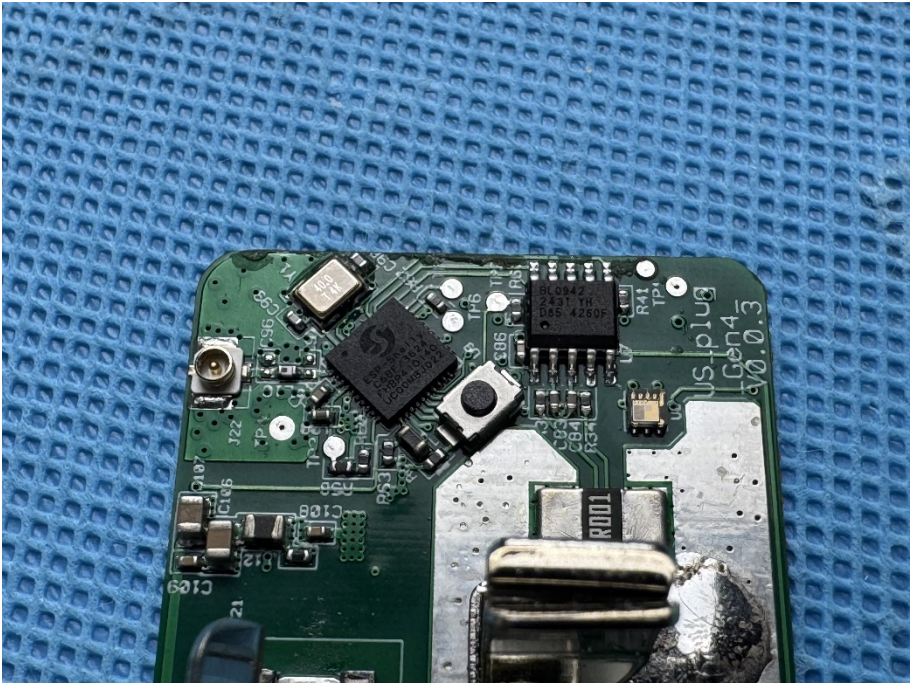

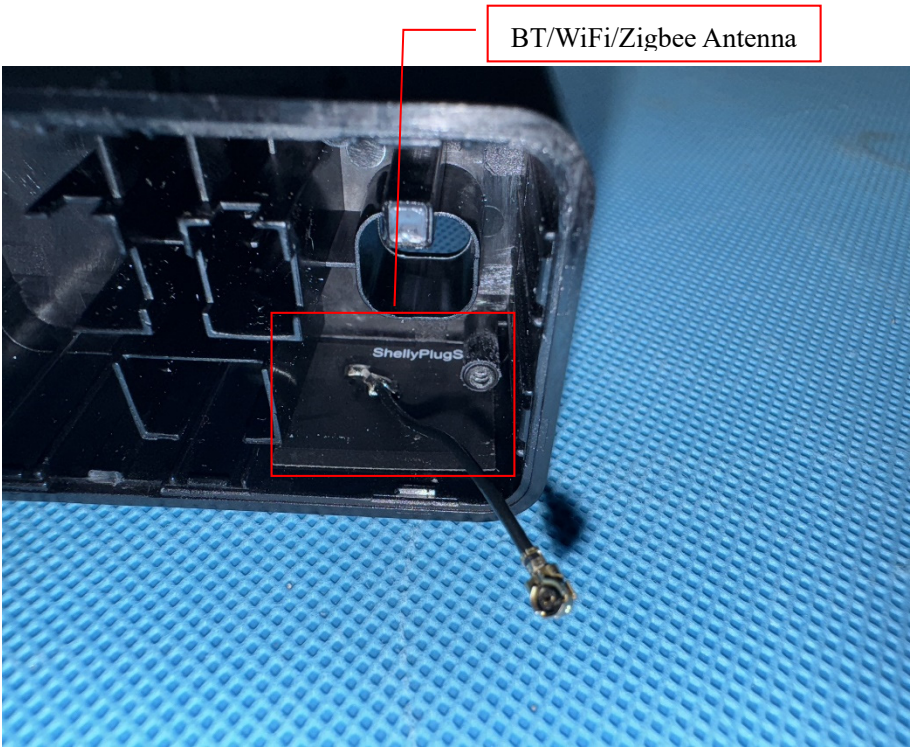

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'View 3', placed on a blue textured surface. The component is rectangular and features several silver-colored solder joints and components. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the ruler.
Solder Board-Component View 4	 A photograph of the same green printed circuit board (PCB) component, labeled 'View 4', placed on a blue textured surface. This view shows the component from a different angle, highlighting different solder joints and components. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component is oriented horizontally, with its longer side parallel to the ruler.

View 6**

Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) with various electronic components. A large black integrated circuit (IC) is visible in the center. The board is populated with numerous surface-mount components, including capacitors, resistors, and smaller ICs. The text "us-plug Gen4 v0.0.3" is printed on the right side of the board. The board is resting on a blue textured surface.
Antenna View	 A photograph showing the underside of a black plastic housing. A red rectangular box highlights a component labeled "ShellyPlugS". A red line points from a label "BT/WiFi/Zigbee Antenna" to a small antenna component located near the highlighted area. The background is a blue textured surface.
