

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a white, rectangular printed circuit board (PCB) component with two large rectangular cutouts. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is oriented vertically, with its top edge near the 100 mm mark on the vertical ruler and its right edge near the 100 mm mark on the horizontal ruler. Various electronic components, including a small black chip and several resistors, are visible on the top-left corner of the board. The text "B0124" is printed on the bottom-right corner of the board.
Solder Board-Component View 2	 A photograph of the same white PCB component from a different angle, showing the top and right sides. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The component is oriented vertically, with its top edge near the 100 mm mark on the vertical ruler and its right edge near the 100 mm mark on the horizontal ruler. The same electronic components and the text "B0124" are visible.

View 4**

Solder Board-Component View 5	 A photograph of a small electronic component, likely a solder bridge or connector, placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler has white markings in millimeters and centimeters. The component is small, rectangular, and appears to be made of metal or plastic with some soldering. It is oriented horizontally.
Solder Board-Component View 6	 A photograph of the same electronic component from a different angle, showing its profile. It is placed on the same blue textured surface next to the same black L-shaped ruler for scale. The component is small, rectangular, and appears to be made of metal or plastic with some soldering. It is oriented horizontally.
