Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> <li>– Reorient or relocate the receiving antenna.</li> <li>– Increase the separation between the equipment and receiver.</li> <li>– Connect the equipment into a circuit different from that to which the receiver is connected.</li> <li>– Consult the dealer or an experienced radio/TV technician for help.</li> </ul> <p>The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p>	Model No.	S01	Bluetooth Version	V 5.3	Output Power	3W	Speaker Unit	1*2Ω 3W	Frequency	70Hz - 20KHz	Battery Type	3.7V / 700mAh Lithium	Input Power	DC 5V / 1A	Charging Time	With in 2h	Waterproof Grade	IPX5	Dimensions	71.5 * 17 * 30mm	Frequency Range	2.402GHz ~ 2.48GHz	Maximum Transmission Power	≤ 6dB
Model No.	S01																													
Bluetooth Version	V 5.3																													
Output Power	3W																													
Speaker Unit	1*2Ω 3W																													
Frequency	70Hz - 20KHz																													
Battery Type	3.7V / 700mAh Lithium																													
Input Power	DC 5V / 1A																													
Charging Time	With in 2h																													
Waterproof Grade	IPX5																													
Dimensions	71.5 * 17 * 30mm																													
Frequency Range	2.402GHz ~ 2.48GHz																													
Maximum Transmission Power	≤ 6dB
