

Radiacode LTD

FCC ID: 2BDDP-110

Date: 5/26/2025

Subject: authorization for adding family models

To whom it May concern,

Statement

We confirm the product Radiacode with models 110, 110S, 110L and 110G are same in the Schematic, PCB layout, Operation description, BOM and Antenna. only difference is the material of the scintillati on crystal, which is a passive component that does not affect frequencies, batteries, charging and other working modes. There are also differences in model names. 110G will only be supplied in the form of scintillation crystal.

Yours sincerely,
