HOW TO CHARGE

1. Charging with Type-C Cable

(1)

(2)

(3)

Headset

Charging: Red light

Fully Charged: Blue light

Charging Case

The number on the right side of the battery display will flash.

2. Charging with Charge Case

(1). Put the headset in the charging case. (Please attach the charging pin of the headset and charging case exactly.)

(2). Closing the lid, and the two utility poles beside the number will flash. The two poles will flash 3 times and then the lights will stay on when the headset is fully charged.

NOTE:

When using the headset for the first time, please charge the battery. (Be sure to charge it with the included TYPE-C cable.)

The number displayed on the LED is the battery level of the charging case, not the of the headset. The headset battery level can be displayed on the connected device.

TROUBLE SHOOTING

1. The headset cannot be connected to the smart device:

(1). Confirm the status of the Bluetooth function;

(2). Turn off the Bluetooth function of your device, delete the historical connection, and pair again;

(3). Please try to connect other accessories devices.

2. The headset can not be charged:

(1). Make sure that the headset is correctly placed/stored in the charging case.

(2). Confirm the battery capacity of the charging case.

(3). Check whether the charging contact point of the charging case or headset has a spot or not.

3. The headset does not respond:

Put the headset in the charging case back, close the lid, and wait another 1 minute or so, then take out the headset, and try to connect again.

4. The charging case cannot be charged:

(1). Check whether the charging cable is tightly connected to the charging case.

(2). Check the remaining battery capacity.

(3). Replace another charge cable

5. The headset has no sound:

(1). Check whether the audio track is played via the smartphone application.

(2). Check whether the headset battery was run out of.

(3). Increase the volume of headset and mobile devices (or playback applications).

(4). Make sure that the correct mobile device is connected. Please try to connect to other mobile devices.

(5). Please try to connect other accessories devices.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
