

A black, rectangular portable power station is shown from a front-three-quarter view. It has a textured surface and four black corner protectors. A ruler is placed horizontally in front of the device, showing measurements in centimeters and inches. A red line is drawn diagonally across the image, starting from the top left and pointing towards the power station. The power station has a control panel on top with several buttons and a small display screen. A label on the front of the device provides technical specifications and safety information. The device is placed on a blue surface.
