FAQs & Troubleshooting
Can't find signal Smart box-xxxx?
Possible Causes:

1. The WiFi and Bluetooth modules of the mobile phone are defective.
2. The Wireless Carplay Adapter has defects.
Solution: Test it with another iPhone. If only a specific iPhone cannot find the Bluetooth or Wi-Fi of the Wireless Carplay Adapter, please try to reset the network and Bluetooth.
settings of this iPhone and then restart the phone once; if the same problem happens on other iPhones, the unit may be defective. In this case, please seeking help from store customer service.

Audio input or output issues: Audio abnormality
Possible Causes: The Bluetooth connection has multiple connections, the audio output selection is wrong.

Solution:
1) Check iphone's Bluetooth' connection, turn it off.
A.Settings> Bluetooth> Choose the Bluetooth that comes with the car like "Car model xxxx" >Click the exclamation mark:
select "Forget This Device";
2) Clear the programs running in the background of your phone when using the Wireless Carplay Adapter.
3) When on a call, check that your "Audio" output option is Carplay.

Persistent disconnection?
Possible Causes: The Wi-Fi connection is disrupted

Solution:
1) Check if your iphone's WiFi is connected to other devices.
2) Resetting your mobile WLAN network. Also, check Wireless Carplay Adapter is ok.
Go to Settings> General >Transfer or Reset iPhone> Reset> Reset Network Settings.

Unable to automatically reconnect?
Possible Causes: Phone Settings conflict

Solution:
1) In some cars, you need to select "automatic connection" in the Carplay settings.
2) Check phone settings:
A.Settings> WLAN> Ask to Join Networks: select "Notify";
B.Settings>WLAN>Click the "ⓘ" symbol on the far right of"
Smart box-xxxx>Turn on "Auto-Join".
3) Other cases:

A. Ensure that Bluetooth and WiFi are turned on normally and unoccupied.
B. Clear the pairing history, restart the phone, and pair the phone again.
C. Update the firmware.

What is the Wi -Fi password for the Wireless CarplayAdapter?

Solution:
we need to connectthe Bluetooth,not Wi-Fi . After Bluetooth matching is successful ,WiFi will automatically connect .So no need Wi -Fi password . Make sure your Wi -Fiis turned on and unoccupied when pairing

Did it disconnect after using it for a while?

Solution:

The box has a built-in protection mechanism. If the machine is in a silent state due to current load, simply unplug and reconnect it.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following

two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarant ee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environm ent. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF exposure warning: This equipment complies with radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with Minimum distance 20cm between the radiator and your body. L'environnement du millipascal incontrôlés, leurs conditions normales d'utilisation de maintenir, aumoins 20cm avec les utilisateurs.
