

## Antenna Specification

### 1. General information

|              |                                                                                                   |
|--------------|---------------------------------------------------------------------------------------------------|
| Model Name   | OA-N01                                                                                            |
| Frequency    | 699-960MHz, 1710-2700MHz,<br>3300-4200MHz, 4400-5000MHz                                           |
| Impedance    | 50Ω                                                                                               |
| Antenna Gain | 3.0 dBi (699-960MHz)<br>6.1 dBi (1710-2700MHz)<br>3.3dBi (3300-4200MHz)<br>2.1 dBi (4400-5000MHz) |
| Antenna Type | SMD Antenna                                                                                       |
| Manufacturer | Guangzhou Cambrian Electronic Technology Co. ,<br>Ltd.                                            |
| Address      | No. 410, D2 Agile Plaza, Luogang, Shuixi Road,<br>Huangpu District Science City, Guangzhou, China |

### 2. Antenna Picture & Dimension (mm)

|                                                                                     |          |                 |
|-------------------------------------------------------------------------------------|----------|-----------------|
|  | <b>L</b> | <b>26.0±0.1</b> |
|                                                                                     | <b>W</b> | <b>5.0±0.1</b>  |
|                                                                                     | <b>T</b> | <b>1.6±0.1</b>  |
|                                                                                     | <b>a</b> | <b>1.1±0.1</b>  |
|                                                                                     | <b>b</b> | <b>2.0±0.1</b>  |

### 3. Antenna Pattern
