Connection Diagram

Installation Steps

- 1 Connect Trivia-Box to your TV with an HDMI cable
- 2 Connect Trivia-Box and power supply.
- 3 Connect Trivia-Box Access Point to your computer. Approve the Trivia-Box in settings.

Network

1.1. Wi-Fi

Check "Wi-Fi", System will start scanning available wireless access points around you automatically.
Choose an access point and enter the password.
After authenticating IP address will be given to the box and "connected" is shown, wireless connection is available now.
Notice: Wi-Fi connection and Ethernet connection are mutually excluded

1.2. Ethernet

Click "Ethernet", box will start DHCP process automatically.
Box will automatically stop Wi-Fi connection and Up Ethernet connection at the moment when Ethernet jack is plugged in.
When the IP address appears, the network connection is available.

1.3. Bluetooth

After entering the home page, long press the "Menu" + "Back" key for more than 3 seconds to perform forced pairing, and the remote control indicator flashes quickly, indicating that the pairing is ready.
When the page prompts that the pairing is successful, you can use it

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
