USER MANUAL

Driver download address: <https://www.iyx.fun/>

System Requirements

Wired mode : Windows XP/ Vista/ Win7/ Win8/ Win10/Mac

2.4G mode : Windows XP/ Vista/ Win7/ Win8/ Win10/Mac

BT mode : Win7/Win8/Win10/Mac

Interface : Free USB port (1.1/2.0/3.0/3.1)

Installation Steps

1. Remove the keyboard and use the cable to connect the keyboard to the computer, or plug the 2.4G receiver into the USB port of the computer, and flip the keyboard switch to 2.4G mode.

(The switch has three positions, off in the center (wired), BT on top, and 2.4G on the bottom.)

Mode switching instructions

1. When the switch is toggled to OFF status, it turns off the power (2.4G and BT), when inserted into the USB, it is the wired mode.
2. When the switch is turned down, it is 2.4G mode, under this mode, the green light of  button will flash to prompt connection, and the original light effect will be restored after successful connection.
3. When the switch is toggled to the top, it is BT mode.

BT pairing

1.Default BT device name: BT3.0/BT5.0

2.Default channel: BT1

3.BT mode can memorize three devices, support key combination fast switching. Long press [FN+1], [FN+2], [FN+3] for 3 seconds to enter the pairing mode of BT 1, 2, 3 channels respectively, and after BT pairing is completed, short press the above key combination to switch between BT 1, 2, 3 channels.

4. Long press [FN+Del] key for 3 seconds to clear the BT pairing record, only in BT mode this compliant function is effective.

Tips

1. Adjustable kickstand for viewing angle adjustment, to adapt to the visual and operational

2. The keyboard can not enter other liquids (or will damage the keyboard)

3. Regularly clean the keyboard to avoid the accumulation of excessive dust affecting the touch feeling

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
