

Bluetooth Keyboard Pairing

Step 1: Slide the power switch ON the keyboard to the ON position.
The status indicator (Power) will be ON for 3 seconds, then off.

Step 2: Press the Connect Button Bluetooth indicator to flash, and enter the search mode.

Step 3: Open Bluetooth on the tablet and search the name "Bluetooth Keyboard", and click Connect.

Step 4: Connect successfully, and the Bluetooth indicator is off.

Backlight Adjustment

1. "Bulb" key: Press once to turn on the light, press twice to turn on the warm color breathing light cycle mode, and press three times to turn off the light.

2. "Tilt" key: Adjust color between 7 colors and clicking at a time to switch new color.

3. How to adjust the brightness: Press Bulb key + Up/Down key for 3 kinds of brightness adjustment, divided into strong, medium & low.

Charging Instruction

The Charge LED flashes red as the battery needs to be charged.
The Charge LED will always light red while the keyboard is charging, and it will go out when the keyboard is fully charged.
