Pairing Your Device with Smart Life App

What You Need

- 1. A smartphone that supports Android 4.0 and iOS 8.0 or higher (functionality not supported).
- 2. A smartphone with stable internet (Wi-Fi or 4G/LTE).

Pairing Instructions

1. Download "Smart Life" App from App Store (iOS) or Google PlayMarket. Create an account and login with your account.
2. Log on the Bluetooth and select the device you want to connect.
3. Open the Smart Life App, tap the "+" icon to open the top right corner and search for "Indoor light".
4. Add the device name and add the on-connect instructions to complete pair.

Wi-Fi disconnected or failed to connect.

- 1. Check the IP address is powered on.
- 2. Ensure your Wi-Fi router is 2.4GHz capable (5GHz is not supported).
- 3. Ensure you have the correct Wi-Fi password during Wi-Fi connection process.
- 4. If connecting the Wi-Fi with a smartphone, please try to check if your home network is working properly.
- 5. Clear the distance between the light and the Wi-Fi router is less than 20m, try re-connecting.

lights fail to light up

- 1. Check that the control box, power provider and all products connected.
- 2. If you have any questions about the device or functionality, please contact our customer service. We have a team of experts to help you with your questions. (Email: sales@indoorlight.com).

Customer Service

- 1. Warranty: 1 Year Limited Warranty
- 2. Support: Lifetime Technical Support
- 3. Email: sales@indoorlight.com

Troubleshooting

1. cannot connect to Smart Life App
 - 1. Check if the light is powered on
 - 2. Check if your smartphone Bluetooth and location is enabled.
 - 3. or connect with another smartphone.
