

Fast Wireless Charging Instructions

Please read the instructions carefully before using

Parameters:

- Magnetic charging head

- Air vent mount
(please refer to the gift box selected model as exact product)

Charging Cable

Features:

- Fast charging with 15W output.
- Custom made magnet array, precisely compatible for iPhone 15/14/13/12 series phones.
- 360 degree rotation for your optimal viewing angle.
- Cradleless design, easy to hold and remove the phone.
- Package includes a high efficient Type C charging cable.

Product specification:

Magnetic charging head:			
Voltage	5V / 3A	9V / 2.2A	12V / 1.67A
Output	15W (Max)		
Charging frequency	115-205KHZ(5W, 7.5W), 360KHZ(15W)		
Induction Distance	1-3mm		
FCC ID	2BDOG-G19-AQI2		

Instructions:

Work for most phones and cases

1. For iPhone 15/14/13/12 series case free or with magsafe case, attach to magnetic mount directly without the metal ring.
2. For iPhone 15/14/13/12 series with regular case or for other phones, need to stick the metal ring to center of the back of the case.

Note: The sticky metal ring does not stick well to textured, leather or liquid silicone phone cases.

Instructions:

1. Insert the adjuster into ball joint of air vent mount, insert the ball into the socket at the back of magnet head, turn the adjuster to tighten.

2. Insert the hook into the car air outlet vane and tighten to lock. when you hear 'clatter' sounds, it means the mount has been fixed tightly.

Attentions :

1. Please use the product correctly according instructions.
2. Please do not disassemble the product or throw it to fire and water, to avoid leakage that caused by electrical short circuit.
3. Please do not use wireless charger in high temperature, wet, corrosive environment, to avoid leakage that caused by damaged circuit.
4. Please do not put wireless charger close to cards with magnetic stripes or chips (ID card, credit card etc.) to avoid demagnetization
5. Please keep wireless charger at least 20 CM distance away from implantable medical device (heart pacemaker, Implantable cochlea etc.) to avoid potential interferences.
6. Please do safekeeping, do not let your kids treat wireless charger as toy to avoid unwanted accidents.

The pictures only supplies the reference, please take the actual product as the standard.

FCC Statement

FCC ID: 2BDOG-G19-AQI2
FCC WARNING: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for an uncontrolled environment. The equipment should be installed and operated with a minimum distance of 20cm between the product and your body.

3. Connect the charging cable to the charging interface.

4. Put the phone on the magnet head, adjust the best viewing angle.
