FCC Certification No. Cover Letter

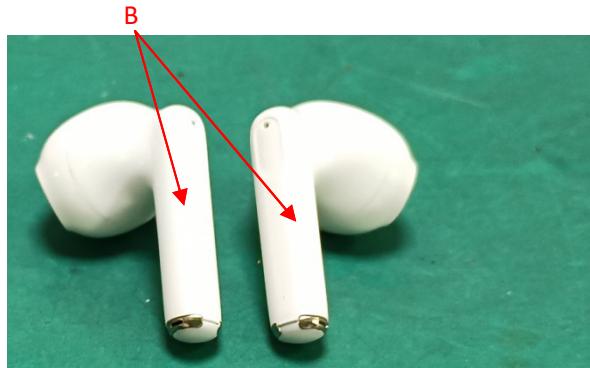

We, TopTech International Inc, hereby submit justification for placing the FCC certification No. in the associated user's manual and charging case.

According to the FCC regulation, the FCC certification No. should be printed on the earbuds, but as the earbuds are too small to print the label (**FCC ID: 2BDON-250009A**), it will be moved to the user manual and charging case. The details are as below:

- A. Top cover (A): The plastic of the top cover does not provide enough physical space to fit the printing of the FCC ID according to below reference picture.

- B. Side surface (B): The side surface does not provide enough physical space to fit the printing of the FCC certification No. according to below reference picture.

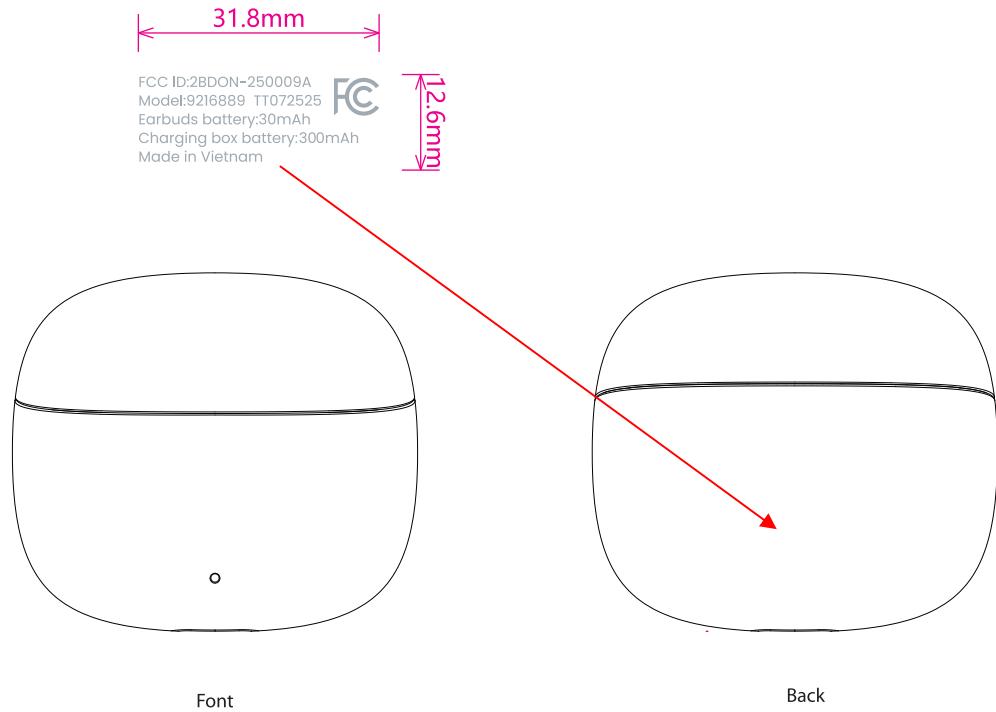

Conclusion

Based on the above description of area A to B, we conclude that the device is unquestionably too small for enabling the FCC ID to be printed onto any surface; we therefore request to move the FCC ID to the User manual and charging case.
